A drag harrow more specifically refers to a largely outdated type of soil cultivation implement that is used to smooth the ground as well as loosen it after it has been plowed and packed. It uses many flexible iron teeth usually arranged into rows. It is set on the ground and pulled and cannot be backed up. It has no hydraulic functionality and has to be raised/adjusted with one or multiple manual levers. It was originally pulled by draft animals and later adapted to tractors. It is a largely outdated piece of farm equipment, having been replaced by more modern tillage equipment, however, smaller farmers still use them.

Sweet Tooth (novel) It deals with the experiences of its protagonist, Serena Frome, during. Sweet Tooth is a novel by the English writer Ian McEwan, published on 21 August 2012

A drag harrow is used to loosen and even out soil after it has been plowed and packed. The drag harrow also kills some weeds that may be present, but it is not very efficient in doing so, and it is not one of its primary functions.

Dental extraction Sometimes impacted wisdom teeth (wisdom teeth that are stuck and unable to grow normally into the mouth) cause recurrent infections of the gum (pericoronitis), and may be removed when other conservative treatments have failed (cleaning, antibiotics and operculectomy). In orthodontics, if the teeth are crowded, healthy teeth may be extracted (often bicuspids) to create space so the rest of the teeth can be straightened. Extractions are performed for a wide variety of reasons, but most commonly to remove teeth which have become unrestorable through tooth decay, periodontal disease, or dental trauma, especially when they are associated with toothache. A dental extraction (also referred to as tooth extraction, exodontia, exodontics, or informally, tooth pulling) is the removal of teeth from the dental A dental extraction (also referred to as tooth extraction, exodontia, exodontics, or informally, tooth pulling) is the removal of teeth from the dental alveolus (socket) in the alveolar bone

Extractions could be categorized into non-surgical (simple) and surgical, depending on the type of tooth to be removed and other factors.

Paintings attributed to Caravaggio Lombardy, an exhibition catalog from The Metropolitan Museum of Art (fully available online as PDF), which contains material on The Tooth Puller (see index) A number of paintings have been attributed from time to time to the Italian artist Michelangelo Merisi da Caravaggio (1571–1610), but are no longer generally accepted as genuine. Immensely popular in his own lifetime, he fell into neglect almost immediately upon his death, with the result that now, four hundred years later, it is often extremely difficult to distinguish works by the master from copies or from original creations by his most gifted followers
