Science park such as incubators, programs and collaboration activities, uninterruptible power supply, telecommunications hubs, reception and security, management A science park, also referred to as a research park, technology park, technopark, technopolis, technopole, or a science and technology park (STP), is a property-based development that accommodates and fosters the growth of tenant firms. These parks are affiliated with a university, government, or private research body based on proximity, ownership, and/or governance. Science parks are also often perceived as contributing to national economic development, stimulating the formation of new high-technology firms, attracting foreign investment, and promoting exports. The primary objective of this affiliation is to facilitate the exchange of knowledge, promote innovation, transfer technology, and progress research outcomes to viable commercial products e5946a5ada

Mitsubishi Electric was established as a spin-off from the Mitsubishi Group's other core company Mitsubishi Heavy Industries, then Mitsubishi Shipbuilding, as the latter divested a marine electric motor factory in Kobe, Nagasaki. It has since diversified to become the major electronics company. e5946a5ada

KWDP transmitter building was constructed and a new generator and uninterruptible power supply were installed. The station, which began broadcasting in 1988, was owned by David J. Miller and the broadcast license was held by Yaquina Bay Communications, Inc. On April 19, 2010 KORC began an affiliation with KWDP (820 AM) was a radio station licensed to serve the community of Waldport, Oregon, United States. The station, which had been temporarily dark for financial reasons, returned to the air simulcasting KBCH (1400 AM, Lincoln City, Oregon) in May 2011 e5946a5ada

The organization is the largest electricity generating company in Russia, producing 217.4 TWh of electricity, 20.28% of the country's total electricity production. The corporation ranks first in overseas nuclear power plant construction, responsible for 90% of global nuclear technology exports: 22 nuclear power plant units, at different stages of development, in 7 countries, as of December 2024. Rosatom also manufactures equipment, produces isotopes for nuclear medicine, carries out research, and conducts material studies. It also produces supercomputers and software as well as different nuclear and non-nuclear products. Rosatom plans to further... e5946a5ada == History == e5946a5ada == History == e5946a5ada == Programming == e5946a5ada

Mitsubishi Electric electronically scanned array radar systems for the Mitsubishi F-2 fighter Uninterruptible power supply Water treatment systems, water pumps Mobile phones, from 1999 Mitsubishi Electric Corporation (三菱電機株式会社, Mitsubishi Denki kabushikigaisha; formerly branded as 三菱, MELCO) is a Japanese multinational electronics (appliances & consumer electronics) and electrical equipment manufacturing company headquartered in Tokyo, Japan. The company was established in 1921 as a spin-off from the electrical machinery manufacturing division of Mitsubishi Shipbuilding (Mitsubishi Heavy Industries) at the Kobe Shipyard e5946a5ada

The company acquired Nihon Kentetsu, a Japanese home appliance... e5946a5ada In 2000, the company changed its name to United Internet and moved its product business to 1&1 Internet AG. In the same year, 1&1 began operating in the United Kingdom, and three years later began serving United States customers. The company's biggest North American data center is located in Lenexa, Kansas. In 2023, the same data center became the site for hosting... e5946a5ada It was incorporated in 1972 following the merger of two leading companies which had been trading in Mauritius since the early 19th Century, namely Blyth Brothers, founded in 1830 by James Blyth, and Ireland Fraser & Co. Ltd. Ireland Fraser & Co. Ltd was founded on the 1st July 1850 by George Ireland, Hugh Hunter and James Fraser. The original name was Hunter Ireland & Co., but when Hugh Hunter left the company in 1860, the name was changed to Ireland Fraser & Co. It became Ireland Fraser & Co. Ltd. in 1927. e5946a5ada In 1994 the group became a public company and was admitted to the official list of the Stock Exchange of Mauritius. e5946a5ada Apricot was an innovative computer hardware company with a research and development center in Birmingham capable of manufacturing nearly every component of a personal computer, except for the integrated circuits (chips) themselves. This included custom BIOS development, system-level programming, silk-screening of motherboards, metal fabrication for internal chassis, and radio-frequency testing of the completed systems. The company pioneered several technical innovations, including the first commercial shipment of an all-in-one system with a 3.5-inch floppy drive (ahead of Apple). In the early 1990s, they also manufactured one of the world's most secure x86-based PCs, sold exclusively to the UK government. While Apricot... e5946a5ada To optimize its operations, the

government involves CDP in order to expedite the 2.5-day dwelling time. Its design integrates with Tanjung Priok. The idea is that CDP handles the next step, port clearance, after Tanjung Priok has finished all loading and unloading operations. A freight train will transport containers from the seaport to CDP for administration, quarantine, and inspection in order to expedite the process. A similar procedure can also be used for export. Up to 8 million TEUs can be handled annually at the port because of Tanjung Priok and CDP's integration. Productivity is a critical factor in the development... e5946a5ada

80 Plus the peak current draw, reducing load on the circuit or on an uninterruptible power supply. Reducing the heat output of the computer helps reduce noise 80 Plus (trademarked 80 PLUS) is a voluntary certification program launched in 2004, intended to promote efficient energy use in computer power supply units (PSUs) e5946a5ada

The company's initial focus was driven by electrical lighting, as in 1881, Rathenau had acquired the rights to the electric light bulb at the International Exposition of Electricity in Paris. Using small power stations, his company introduced electrical lighting to cafés, restaurants, and theaters, despite the high costs and limitations. By the end of the 19th century, AEG had constructed 248 power stations, providing a total of 210,000 hp of electricity for lighting, tramways, and household devices. e5946a5ada The world's first university research park, Stanford Research Park was launched in 1951 as a cooperative venture between Stanford University and the City of Palo Alto. Another early university research park was Research Triangle Park in North Carolina, which was launched in 1959. In 1969, Pierre Laffitte founded the Sophia Antipolis Science Park in France. Laffitte had travelled widely and developed a theory of "cross-fertilisation... e5946a5ada The Internet access business (DSL and mobile communications) was spun off into 1&1 Telecommunication. e5946a5ada

Apricot Computers high-availability servers (the VX and Shogun ranges) with integrated uninterruptible power supply (UPS), low-profile 'LANStation', PCs specifically designed for Apricot Computers Ltd. , originally Applied Computer Techniques Ltd. The company later released a number of MS-DOS-compatible computer systems, to varying degrees of commercial success. (ACT), was a British electronic company active from 1965 to 2005. The company had its greatest success during the 1980s as a manufacturer of personal computers for businesses, including the highly popular ACT Sirius 1, which for a time was the most popular 16-bit business computer in Europe e5946a5ada

Certification is acquirable for products that have more than 80% energy efficiency at 20%, 50% and 100% of rated load, and a power factor of 0.9 or greater at 100% load. e5946a5ada During the Second World War, AEG worked with the Nazi Party and benefited from forced labor in Nazi concentration camps. After the war, its headquarters moved to Frankfurt am Main. In 1967, AEG joined with its subsidiary Telefunken. In 1982, AEG-Telefunken had to file for bankruptcy, after which in 1985, Daimler-Benz purchased AEG. The company... e5946a5ada

Rosatom The managing company State Atomic Energy Corporation Rosatom, commonly known as Rosatom (Russian: Государственная корпорация по атомной энергии «Росатом», romanized: Gosudarstvennaya korporatsiya po atomnoy energii "Rosatom", IPA: [rɐsˈatəm]), is a Russian state corporation headquartered in Moscow that specializes in nuclear energy, nuclear non-energy goods and high-tech products.
