There were typically three storylines in each episode. One storyline usually focused on a member of the crew, a second storyline would often focus on a crew member interacting with a passenger, and the third storyline was more focused on a single passenger (or a group of passengers). The three storylines usually followed a similar thematic pattern: One storyline (typically the "crew" one) was straight-ahead comedy. Another storyline would typically follow more of a romantic comedy format (with only occasional dramatic elements). The remaining storyline would usually be the most dramatic of the three, often offering few (if any) laughs and a far more serious tone. The British series has appeared in five versions: the main MasterChef series; Celebrity MasterChef; MasterChef: The Professionals, with working chefs; Junior MasterChef, with children between the ages of nine and twelve; and Young MasterChef for those aged between 18 and 25. It is the originator of the MasterChef franchise that has been adapted and reproduced in 60 countries around the world in various localised versions.
