

Factor That Have Enabled Globalisation

Middle East economic integration several initiatives have enabled rapprochement among former enemies: The Oslo Peace Accords and the 1994 Israel-Jordan peace treaty have promulgated greater Policies advocating Middle East economic integration aim to bring about peace, stability, and prosperity in the Middle East, which they believe can only be sustained over the long run via regional economic cooperation d92df45b4d

International finance studies the flow of capital across international financial markets, and the effects of these movements on exchange rates. d92df45b4d The term outsourcing, which came from the phrase outside resourcing, originated no later than 1981 at a time when industrial jobs in the United States were being moved overseas, contributing to the economic and cultural collapse of small, industrial towns. In some contexts, the term smartsourcing is also used. d92df45b4d

International economics moves toward integration that have occurred, the strongest has been in financial markets, in which globalisation is estimated to have tripled since the mid-1970s International economics is concerned with the effects upon economic activity from international differences in productive resources and consumer preferences and the international institutions that affect them. It seeks to explain the patterns and consequences of transactions and interactions between the inhabitants of different countries, including trade, investment and transaction d92df45b4d

English as a lingua franca). ELF is "defined functionally by its use in intercultural communication rather than formally by its reference to native-speaker norms" whereas English as a second or foreign language aims at meeting native speaker norms and gives prominence to native-speaker cultural aspects. language – What do future teachers have to say. " In Gnutzmann, Claus; Intemann, Frauke (eds. The Globalisation of English and the English Language English as a lingua franca (ELF) is the use of the English language "as a global means of inter-community communication" and can be understood as "any use of English among speakers of different first languages for whom English is the communicative medium of choice and often the only option" d92df45b4d

Outsourcing 1967, proposed the business model that eventually became known as outsourcing. Outsourcing sometimes involves transferring employees and assets from one firm to another, or forming a separate legal entity that acts as a management service organization (MSO). The growth of offshoring of IT-enabled services, although not universally Outsourcing is a business practice in which companies use external providers to carry out business processes that would otherwise be handled internally d92df45b4d

== History == d92df45b4d English became the established global lingua franca in academia after the 1940s (until which French and German were of equal importance) and, by the end of the 20th century, partly by the cultural influence of the United States, had become the dominant lingua franca in all communication. While lingua francas have been used for centuries, what makes ELF a novel phenomenon is the extent to which it is used in spoken, written and computer-mediated communication. ELF research focuses on the pragmatics of variation which is manifest in the variable use of the resources of English for a wide range of globalized purposes, in important... d92df45b4d

Spatial intelligence (psychology) It is defined by Howard Gardner as a human computational capacity that provides the ability or mental skill to solve spatial problems of navigation, visualization of objects from different angles and space, faces or scenes recognition, or to notice fine details. "Intelligent Cities and Globalisation of Innovation Networks. Gardner further explains that spatial Intelligence could be more effective to solve problems in areas related to realistic, thing-oriented, and investigative occupations. This capability is a brain skill that is also found in people with visual impairment. " Routledge, London and New York Gopnik, Adam Spatial intelligence is an area in the theory of multiple intelligences that deals with spatial judgment and the ability to visualize with the mind's eye. The spatial reasoning of the blind person allows them to translate tactile sensations into mental calculations of length and visualizations of form. States of America. As researched by Gardner, a blind person can recognize shapes in a non-visual way. Komninos Nicos (2008) d92df45b4d

Corporate behaviour a business, it also enables businesses to overcome any problems they may face. For example, due to an increase in globalisation, language barriers are Corporate behaviour is the actions of a company or group that is acting as a single body. Studies on corporate behaviour show the link between corporate communication and the formation of its identity. It defines the company's ethical strategies and describes the image of the company d92df45b4d

Not only does corporate behaviour play various roles within different areas of a

business, it also enables businesses to overcome any problems they may face. For example, due to an increase in globalisation, language barriers are likely to increase for organisations, creating major problems as day-to-day business may be disrupted. Corporate behaviour enables managers to overcome this problem by improving flexibility. Also, many businesses are struggling to remain competitive in terms of quality and productivity due to intense competition within markets. However, corporate behaviour is able to fix this issue by allowing managers to empower their employees, as they are the ones who are able to make a change. Positive corporate behaviour can result in employees feeling happy and content at work, providing the best outcome. This is beneficial for management as it could lead to effective teams being...

Spatial intelligence is one of the nine intelligences on Howard Gardner's theory of multiple intelligences, each of which is composed of a number of separate sub capacities. An intelligence provides the ability to solve problems or create products that are valued in a particular culture. Each...

International monetary economics and international macroeconomics study flows of money across countries and the resulting effects on their economies as a whole.

People of non-European races have sometimes not been accepted as players in European football. This has changed in recent times, due to societal change as well as campaigning on the part of the race lobby groups. UEFA and the European Union support the Football Against Racism in Europe (FARE) project which aims to stop racism.

International trade studies goods and services flows across international boundaries from supply-and-demand factors, economic integration, international factor movements, and policy variables such as tariff rates and trade quotas.

Knowledge economy The key element of value in this paradigm lies in the increased reliance on human capital and intellectual property as primary sources of innovative ideas, information, and practices. The rapid globalisation of economic activities is one of the main determinants of the emerging

The knowledge economy, or knowledge-based economy, is an economic system in which the production of goods and services is primarily driven by knowledge-intensive activities that contribute to the advancement of technical and scientific innovation. A knowledge-based economy is founded on the crucial role of intangible assets within organisations as an enabler of modern economic growth. This approach is characterized by reduced dependence on physical inputs and natural resources. Organizations are called upon to leverage this "knowledge" in their production processes to stimulate and consolidate their business development.

network members, to gain economies of scale in a wider scale

Ethnicity and association football While football has moved around the world from its roots in England during the 18th century, the progress of non-European players has sometimes been hindered, with racism a continuing problem in many countries. advertising and technology have been determining factors in the commercialisation of football which has resulted in the globalisation of the sport. The main Ethnicity and football is a description of the global acceptance of association football, with players from many races and countries participating

Globalisation has created a sense of homogenised culture in football where players from different ethnic backgrounds have congregated in one particular team. This enables the team to form some kind of "supranational" (Maguire J, 2009) entity that in turns loses its local or national identity but gains a mixture of strengths that ideally improves the team's performance. A good example of this are the teams associated to the Premier League based in England. All of these teams are made up of...

Globalization and disease Economic factors have been defined by global boundaries rather than national Globalization, the flow of information, goods, capital, and people across political and geographic boundaries, allows infectious diseases to rapidly spread around the world, while also allowing the alleviation of factors such as hunger and poverty, which are key determinants of global health. technology, the possibility of economic globalization is enabled even more. The spread of diseases across wide geographic scales has increased through history. Early diseases that spread from Asia to Europe were bubonic plague, influenza of various types, and similar infectious diseases

Outsourcing includes both foreign and domestic... == Background == The practice of handing over control of public services to private enterprises (privatization), even if conducted on a limited, short-term basis, may also be described as outsourcing. == Role == == Overview == International political economy, a sub-category of international relations, studies issues and impacts from for example international conflicts, international negotiations, and international sanctions; national security and economic nationalism; and international agreements... In the current era of globalization, the world is more interdependent than at any other time. Efficient and inexpensive transportation has left few places inaccessible, and increased global trade in agricultural products has brought more and more people into contact with animal diseases that have subsequently jumped species barriers (see zoonosis). The concept, which The Economist says has "made its presence felt since the time of the Second World War", often involves

the contracting out of a business process (e.g., payroll processing, claims processing), operational, and/or non-core functions, such as manufacturing, facility management, call center/call center support. d92df45b4d

Ministry of Foreign Affairs (Egypt) This enabled Egyptian diplomacy to have a role in the international arena The Ministry of Foreign Affairs of the Arab Republic of Egypt (Arabic: *وزارة الخارجية المصرية*) is the Egyptian government ministry which oversees the foreign relations of Egypt. On 3 July 2024 Badr Abdelatty was appointed Minister of Foreign Affairs. of "ambassador" which in turn enabled Egypt to join the League of Nations in 1937 d92df45b4d

Globalization intensified during the Age of Exploration, but trading routes had long been established between Asia and Europe, along which diseases were also transmitted. An increase in travel has helped spread diseases to natives of lands who had not previously been exposed. When a native population is infected with a new disease, where they... d92df45b4d == Globalization == d92df45b4d
