Hypocalcemia This type of electrical instability. life-threatening cardiac electrical instability (and this is therefore a more critical condition than constant QTc prolongation) dea5ce209d

Long QT syndrome The QTc is less than 450 ms in 95% of normal males, and less than 460 ms in 95% of normal females. LQTS is suggested if the QTc is longer than. concealed LQTS dea5ce209d
