The gulf is considered one of the world's important maritime zones due to being an entrance to the Suez Canal. The Japanese grant, accounting for 60% of the construction cost (or 13.5 billion yen), was agreed to during the visit of then-President Hosni Mubarak to Japan in March 1995, as part of a larger project to develop the Sinai Peninsula. Egypt bore the remaining 40% (9 billion yen). The bridge was opened in October 2001.

Raid on the Suez Canal The raid on the Suez Canal, also known as actions on the Suez Canal, took place between 26 January and 4 February 1915 when a German-led Ottoman force advanced from southern Palestine to attack the British Empire-protected Suez Canal, marking the beginning of the Sinai and Palestine campaign (1915–1918) of World War I (1914–1918)

The first El Ferdan Railway Bridge over the Suez Canal was completed in April 1918 for the Sinai Military Railway. It was considered a hindrance to shipping so after the First World War it was removed. A steel swing bridge was built in 1942 (during the Second World War), but this was damaged by a steamship and removed in 1947. A double swing bridge was completed in 1954 but the 1956 Anglo-Franco-Israeli war with Egypt severed rail traffic across the canal for a third time. A replacement bridge was completed in 1963 which was destroyed in 1967 in the Six-Day War by the Egyptian engineering General Ahmed Hamdy.

In 1858, French diplomat Ferdinand de Lesseps formed the Compagnie de Suez for the express purpose of building the canal. Construction of the canal lasted from 1859 to 1869 and it officially opened on 17 November 1869. It offers vessels a direct route between the North Atlantic and northern Indian oceans via the Mediterranean Sea and the Red Sea, avoiding the South Atlantic and southern Indian oceans and reducing the journey distance from the Arabian Sea to London by approximately 8,900 km (5,500 mi), to 10 days at 20 knots (37 km/h; 23 mph) or 8 days at 24 knots (44 km/h; 28 mph). The canal extends from the northern terminus of Port Said to the southern terminus of Port Tewfik at the city of Suez. In 2021, more than 20,600 vessels traversed the canal (an average of 56 per day).

The Ismailia Canal proper ends at Ismailia. Additional branches connect the canal from Ismailia to Suez and Port Said. The Sweet Water Canal refers to a combination of the Ismailia Canal and its southern branch to Suez.

Substantial Ottoman forces crossed the Sinai Peninsula, and a few managed to cross the Canal. The primary objective of the Ottoman forces was not to capture British Egypt, but to seize the Suez Canal. Capturing this strategically vital channel would cut British communications with East Africa, India and Asia, and prevent British Empire troops from reaching the Mediterranean Sea and Europe. The Ottoman attack was a failure with the loss of nearly 2,000 troops. 42af288b9f Since its opening in 1869 the Suez Canal had featured prominently in British policy and concerns. Among the great advantages it provided were a line of communication and also the site for a military base; the well equipped ports at Alexandria and Port Said made the region particularly useful. However, the Egyptian public was becoming increasingly opposed to the British occupation of Egypt... 42af288b9f
