B 5e21f1241b F 5e21f1241b GM-CSF 5e21f1241b
Common side effects include nausea and vomiting,
diarrhea, skin rashes, and pain at the site of injection.
It increases the risk of hospital-acquired *Clostridioides*
difficile colitis about fourfold and thus is only
recommended for use when other antibiotics are not
appropriate. It appears to be generally safe in
pregnancy. It is of the lincosamide class and works by
blocking bacteria from making protein. 5e21f1241b A

5e21f1241b *S. agalactiae* was recognized as a
pathogen in cattle by Edmond Nocard and Mollereau
in the late 1880s. It can cause bovine mastitis
(inflammation of the udder) in dairy cows. The species

name "agalactiae" meaning "no milk", alludes to this. Its significance as a human pathogen was first described in 1938, and in the early 1960s, GBS came to be recognized as a major cause of infections in newborns. In most people, *Streptococcus agalactiae* is a harmless commensal bacterium that is part of the normal human microbiota colonizing... 5e21f1241b GH 5e21f1241b Gtts 5e21f1241b GP 5e21f1241b Prescription abbreviations 5e21f1241b GXT 5e21f1241b Abbreviations for diseases and disorders 5e21f1241b Abbreviations for medical organisations and personnel 5e21f1241b glomerulonephritis 5e21f1241b G6PD 5e21f1241b glutamic-pyruvic transaminase 5e21f1241b gamma glutamyl transferase 5e21f1241b GFR 5e21f1241b group A beta-hemolytic streptococcus 5e21f1241b Prescription abbreviations 5e21f1241b ground glass opacification 5e21f1241b mayoclinic.com: Linksearch en (insource) - meta - de - fr - simple - wikt:en - wikt:fr • Spamcheck • blacklist hits • MER-C X-wiki • gs • Reports: Links on en - COIBot - COIBot-Local • Discussions: tracked - advanced - RSN • COIBot-Link, Local, & XWiki Reports - Wikipedia: en - fr - de • Google: search • meta • Domain: domaintools • AboutUs.com . 5e21f1241b granulocyte colony-stimulating factor 5e21f1241b GMFCS 5e21f1241b N 5e21f1241b gunshot wound 5e21f1241b GI 5e21f1241b T 5e21f1241b glomerular filtration rate 5e21f1241b ground level fall 5e21f1241b M 5e21f1241b D 5e21f1241b N 5e21f1241b glutamic-oxalacetic transaminase

Eating disorder (NIMH) PANDAS and the broader PANS are An eating disorder (ED) is a mental disorder defined by abnormal eating behaviors that adversely affect a person's physical or mental health. These behaviors may include eating too much food or too little food, as well as body image issues. tic disorders such as Tourette syndrome, and in whom symptoms worsen following infections such as strep throat". These disorders do not include obesity. Types of eating disorders include anorexia, where the person has an intense fear of gaining weight, thus restricts food and/or over exercises to manage this fear; bulimia, where individuals eat a large quantity (binging) then try to rid themselves of the food (purging), in an attempt to not gain any weight; binge eating disorder, where the person suffering keeps eating large amounts in a short period of time typically while not being hungry, often leading to weight gain; pica, where the patient eats non-food items; rumination syndrome, where the patient regurgitates undigested or minimally digested food; avoidant/restrictive food intake disorder (ARFID), where people have a reduced or selective food intake due to some psychological reasons; and a group of other specified feeding or eating disorders. Anxiety disorders, depression and substance abuse are common among people with eating disorders. People often 5e21f1241b

COVID-19 pandemic resultant scarlet fever. The World
Health Organization (WHO) declared the outbreak a
public health emergency of international concern
(PHEIC) on 30 January 2020 and assessed it as having
become a pandemic on 11 March. As of mid-December
2022, 19 children in the UK had died due to Strep A
and the wave of infections had begun to spread into
North The global COVID-19 pandemic (also known as
the coronavirus pandemic), caused by severe acute
respiratory syndrome coronavirus 2 (SARS-CoV-2),
began with an outbreak in Wuhan, China, in December
2019. The WHO declared that the public health
emergency caused by COVID-19 had ended in May
2023, while noting that COVID-19 continued to be a
global health threat. It spread to other parts of Asia
and then worldwide in early 2020 5e21f1241b
