69 Love Songs was originally conceived as a music revue. Stephin Merritt was sitting in a gay piano bar in Manhattan, listening to the pianist's interpretations of Stephen Sondheim songs, when he decided he ought to get into theatre music because he felt he had an aptitude for it. "I decided I'd write one hundred love songs as a way of introducing myself to the world. Then I realized how long that would be. So I settled on sixty-nine. I'd have a theatrical revue with four drag queens. And whoever the audience liked best at the end of the night would get paid." He also found inspiration in Charles Ives' 114 Songs, about which he had read earlier in the day: "songs of all kinds, and what a monument it was, and I thought, well, I could do something like that."

Supposition theory aimed at anything at all anymore. But if I say Some cups were made of Supposition theory was a branch of medieval logic that was probably aimed at giving accounts of issues similar to modern accounts of reference, plurality, tense, and modality, within an Aristotelian context. By the 14th century it seems to have drifted into at least two fairly distinct theories, the theory of "supposition proper", which included an "ampliation" and is much like a theory of reference, and the theory of "modes of supposition" whose intended function is not clear. When I say No cups are made of lead, cups supposits for all the cups that exist. Philosophers such as John Buridan, William of Ockham, William of Sherwood, Walter Burley, Albert of Saxony, and Peter of Spain were its principal developers

To the unfamiliar, the proverb may sound confusing due to the ambiguity of the word 'have', which can mean 'keep' or 'to have in one's possession', but which can also be used as a synonym for 'eat' (e.g. 'to have breakfast'). Some find the common form of the proverb to be incorrect or illogical and instead prefer: "You can't eat your cake and [then still] have it (too)". Indeed, this used to be the most common form of the expression until the 1930s–1940s, when it was overtaken by the have-eat variant. Another, less common, version uses 'keep' instead of 'have'. Across 45 shows (out of 47), the tour sold 581,066 tickets, with a box-office gross of \$70.1 million, and earned an additional \$100 million from merchandising. Overall, the tour was the eighth highest-grossing concert tour of 2008. The seventeen-night sellout residency at London's O2 Arena was the highest-grossing engagement of the year, taking in \$33.8 million and drawing an audience of 256,647, winning the 2008 Billboard Touring Award for Top Boxscore. This was also the most recent Spice Girls tour to feature Victoria Beckham, as she declined to participate in their subsequent reunion tour due to other commitments. This reference is used in situations where one desires two incompatible things, or where one should not try to have more than is reasonable. The proverb's meaning is similar to the phrases "you can't have it both ways" and "you can't have the best of both worlds."

You can't have your cake and eat it Ben Zimmer, writing for the Language Log of the University of Pennsylvania You can't have your cake and eat it (too) is a popular English idiomatic proverb or figure of speech. The phrase literally means "you cannot simultaneously consume and retain possession of a cake", but the proverb is implying a simpler concept: Once the cake is eaten, it is gone. "eat-have" makes more sense: once you've eaten your cake, you don't have it anymore
