Celery dulce) is a cultivated plant belonging to the species *Apium graveolens* in the family *Apiaceae* that has been used as a vegetable since ancient times. Celery is Celery (*Apium graveolens* Dulce Group or *Apium graveolens* var. Italian cuisine, chopped onions, carrots, and celery are slowly cooked in olive oil to make soffritto, which is used as a base for many dishes 01be60b631

Fracking, using either hydraulic pressure or acid, is the most common method for well stimulation. Well stimulation techniques help create pathways for oil, gas or water to flow more easily, ultimately increasing the overall production of the well. Both methods of fracking are classed as unconventional, because they

aim to permanently enhance, or increase, the permeability of the formation. Thus, the traditional division of hydrocarbon-bearing rocks into source and reservoir no longer holds; the source rock becomes the reservoir after the... 01be60b631 Historically, celery has held culinary and symbolic significance. Literary evidence indicates celery cultivation in Ancient Greece, while ancient Egyptians incorporated it into funeral garlands. Celery remains eaten around the world. 01be60b631 Born into the aristocracy, Toulouse-Lautrec broke both his legs during adolescence, leaving him with a stunted appearance. In later life, he developed an affinity for brothels and prostitutes that directed the subject matter for many of his works, which record details of the late-19th-century bohemian lifestyle in Paris. He is among the painters described as Post-Impressionists, with Paul Cézanne, Vincent van Gogh, Paul Gauguin, and Georges Seurat also commonly considered as belonging in this loose group. 01be60b631 Henri Marie Raymond de Toulouse-Lautrec-Montfa was born at Demoiselles d'Imbert du Bosc (his great-aunts) home at rue de l'École Mage (presently 14, rue Henri de Toulouse Lautrec), Albi, in the south of France, the firstborn child of Count Alphonse de Toulouse-Lautrec Montfa (1838-1913... 01be60b631

Fracking When the hydraulic pressure is removed from the well, small grains of hydraulic fracturing proppants (either sand or aluminium oxide) hold the fractures open. The process involves the high-pressure injection of "fracking fluid" (primarily water, containing sand or other proppants suspended with the aid of thickening agents) into a wellbore to create cracks in the deep-rock formations through which natural gas, petroleum, and brine will flow more freely. proved much more effective than vertical wells in producing oil from tight chalk; sedimentary beds are usually nearly horizontal, so horizontal wells have Fracking (also known as hydraulic fracturing, fracing, hydrofracturing, or hydrofracking) is a well stimulation technique involving the fracturing of formations in bedrock by a pressurized liquid 01be60b631

Petroleum industry Petroleum is also the raw material for many chemical products, including pharmaceuticals, solvents, fertilizers, pesticides, synthetic fragrances, and plastics. The largest volume products of the industry are fuel oil and gasoline (petrol). Upstream regards exploration and extraction of crude oil, midstream encompasses transportation and storage of it, and downstream concerns refining crude oil into various end products. also known as the oil industry, includes the global processes of exploration,

extraction, refining, transportation (often by oil tankers and pipelines) The petroleum industry, also known as the oil industry, includes the global processes of exploration, extraction, refining, transportation (often by oil tankers and pipelines), and marketing of petroleum products. The industry is usually divided into three major components: upstream, midstream, and downstream 01be60b631

Several TikTok content creators, such as Eitan Bernath, Poppy O'Toole and Emily Mariko have gained recognition through their recipes and content. Some of the most notable TikTok food trends include the leftover salmon bowl, baked feta cheese pasta, and pesto eggs. 01be60b631

Henri de Toulouse-Lautrec His immersion in the colourful and theatrical life of Paris's Belle Époque in the late 19th century allowed him to produce popular works of art from decadent affairs. 1892), oil and gouache on cardboard, Wadsworth Atheneum Museum of Art In Bed (1893), oil on cardboard, Musée d'Orsay The Medical Comte Henri Marie Raymond de Toulouse-Lautrec-Montfa (24 November 1864 – 9 September 1901), known as Toulouse-Lautrec (French: [tuluz lotɛk]), was a French painter, printmaker, draughtsman, caricaturist, and illustrator. leaving the Moulin Rouge (c 01be60b631

Food-related content on TikTok is often categorized under the hashtags #TikTokFood and #FoodTok, which each have millions of posts. Some TikTok users share personal recipes and dietary habits, while others use step-by-step cooking videos to grow their online presence. 01be60b631

01be60b631 Coffee production begins when the seeds from coffee cherries, the *Coffea* plant's fruits, are separated to produce unroasted green coffee beans. The "beans" are roasted and then ground into fine particles. Coffee is brewed from the ground roasted beans, which are typically steeped in hot water before being filtered out. It is usually served hot, although chilled or iced coffee is common. Coffee can be prepared and presented in a variety of ways, e.g., espresso, French press, caffè latte, or already-brewed canned coffee. Sugar, sugar substitutes, milk, and cream are often added and change the flavor.

01be60b631 The popularity of these trends has had an influence on interest in cooking among younger generations, discussions about body image, the marketing of food products on social media, and temporary food shortages.

01be60b631 Beef is a large part of the Argentine diet due to its vast production in the country's plains. Argentine annual consumption of beef has averaged 100 kg (220 lb) per capita, approaching 180 kg (400 lb) per capita during the 19th century; consumption averaged 67.7 kg (149 lb) in 2007.

01be60b631 Petroleum is vital to many industries, and is necessary for the maintenance of industrial civilization in its current configuration, making it a critical concern for many nations. Oil accounts for a large percentage of the world's energy consumption, ranging from a low of 32% for Europe and Asia, to a high of 53% for the Middle East.

01be60b631 Originally marketed as a temperance drink and intended as a patent medicine, Coca-Cola was invented in the late 19th century by John Stith Pemberton in Atlanta. In 1888, Pemberton sold the ownership rights to Asa Griggs Candler, a businessman, whose marketing tactics led Coca-Cola to its dominance of the global soft-drink market throughout the 20th and 21st centuries. The name refers to two of its original ingredients: coca leaves and kola nuts (a source of caffeine). The formula of Coca-Cola remains a trade secret; however, a variety of reported recipes and experimental recreations have been published. The secrecy around the formula has been used by Coca-Cola as a marketing aid because only a handful of anonymous employees know the...

01be60b631 Beyond asado (the Argentine barbecue), no other dish more genuinely matches the national identity. Nevertheless, the country's vast area, and its cultural diversity, have led to a local cuisine of various dishes.

01be60b631 As of 2010, Gatorade is PepsiCo's fourth-largest brand, on the basis of worldwide annual retail sales. It competes with Coca-Cola's Powerade and Vitaminwater brands worldwide, and with Lucozade in the United Kingdom. Within the United States,

Gatorade accounts for approximately 61.6% of market share in the sports drink category as of 2025. The original wild species has been selectively bred over centuries into three primary cultivar groups: stalk celery (Dulce Group), consumed for its fibrous edible stalks; leaf celery (Secalinum Group), grown for its aromatic leaves; and celeriac (Rapaceum Group), cultivated for its large, edible hypocotyl. Celery is characterized by its long, ribbed stalks, pinnate leaves, and small white flowers arranged in umbels.
