Cold-weather biking Winter cyclists may wear layers of warm clothes and ear, face, and hand coverings may be worn. Specialized winter bikes called fatbikes Cold-weather biking, cold-weather cycling, or winter biking is the use of a bicycle during months when roads and paths are covered with ice, slush and snow. Winter cyclists may use bikes with front and rear fenders, metal studded winter tires and flashing LED lights. Cold weather cyclists face a number of challenges in near or below freezing temperatures. Some cyclists may bike differently in winter, by "slow[ing] down on turns and brak[ing] gradually" in icy conditions. Urban commuters on city streets may have to deal with "[s]now, slush, salt, and sand", which can cause rust and damage to metal bike components. flashing LED lights. Specialized winter bikes called fatbikes, which have wide, oversized tires that are typically inflated with low pressure, are used in snow trail riding and winter bike competitions. Gaining traction on snow and ice-covered roads can be difficult. Slush and ice can jam derailleurs. Winter cyclists may wear layers of warm clothes and ear, face, and hand coverings may be worn 54c28fa99b
