Tick mattress over the bed, and where it was too long or too broad, Heidi quickly tucked it in under the hay. This is then filled to make a mattress, with material such as straw, chaff, horsehair, coarse wool or down feathers, and less commonly, leaves, grass, reeds, bracken, or seaweed. A feather-filled tick is called a featherbed, and a down-filled one is a downbed; these can also be used above the sleeper as a duvet. The tick mattress may then be sewn through to hold the filling in place, or the unsecured filling could be shaken and smoothed as the beds were aired each morning. A tick filled with flock (loose, unspun fibers, traditionally of cotton or wool) is called a flockbed. A straw-filled bed tick is called

Most bedwetting is a developmental delay—not an emotional problem or physical illness. Only a small percentage (5 to 10%) of bedwetting cases have a specific medical cause. Bedwetting is commonly associated with a family history of the condition. Nocturnal enuresis is considered primary when a child has not yet had a prolonged period of being dry. Secondary nocturnal enuresis is when a child or adult begins wetting again after having stayed dry. Known for its non-contemporary structure, humor, and incorporation of dramatic elements, *How I Met Your Mother* was popular throughout its run. It received positive reviews initially, but reception became more mixed as the seasons went on. The show was nominated for 91 awards and received 21.

Treatments range from behavioral therapy, such as bedwetting alarms, to medication, such as hormone replacement, and even surgery such as urethral dilation. Since most bedwetting is simply a developmental delay, most treatment plans aim to protect or improve self-esteem. Treatment guidelines recommend that the physician counsel the parents, warning about psychological consequences caused by pressure, shaming, or punishment for a condition children cannot control. == Plot ==
