

Oldest Tree In The World

The Senator (tree) 44 m). The Senator was the biggest and oldest bald cypress tree in the world, located in Big Tree Park, Longwood, Florida. In January 2012, the tree was killed when a local meth addict started a garbage fire inside the hollow trunk so she could see the crystal meth she was trying to smoke. At the time of its demise in 2012, The Senator was the biggest and oldest bald cypress tree in the world, located in Big Tree Park, Longwood, Florida. 27 feet (3. At the time of its demise in 2012, it was approximately 3,500 years old, 125 feet (38 m) tall, and with a trunk diameter of 11 0f0278eab1

List of oldest living people Retrieved This is a list of the oldest living people who have been verified to be alive as of the dates of the cited supporting sources. Nearly all the top 50 oldest living people are women, as women live longer than men on average. Lithuania. Nuwer, Rachel (16 September 2015). Smithsonian Magazine. It was estimated in 2015 that between 150 and 600 living people had reached the age of 110. A list of the oldest living men is provided below the main list. The true number is not certain, as not all supercentenarians are known to researchers at a given time, and some claims cannot be validated or are fraudulent. Hasegawa was born in Japan. "Keeping Track of the oldest People in the World" 0f0278eab1

List of oldest church buildings These surviving freestanding buildings were purposely constructed for use by congregations (or used at an early date). The dates are the approximate dates when they were built and/or reconstructed and/or first used by Christian congregations for worship. In most instances, buildings listed here were reconstructed numerous times and only fragments of the original This article lists some but by no means all of the oldest known church buildings in the world. In most instances, buildings listed here were reconstructed numerous times and only fragments of the original buildings have survived. the oldest known church buildings in the world 0f0278eab1

Platanus orientalis Platanus orientalis, the Oriental plane, or chinar, is a large, deciduous tree in the family Platanaceae, native from the eastern Mediterranean to Iran Platanus orientalis, the Oriental plane, or chinar, is a large, deciduous tree in the family Platanaceae, native from the eastern Mediterranean to Iran. Long cultivated for shade and ornament, and extensive planting since antiquity has made precise limits of its original range difficult to determine. It can grow to 30 m (98 ft) or more, and in autumn, its deep green leaves may change to blood red, amber, and yellow. It typically grows along rivers, streams and springs, and has broad spreading crown, exfoliating bark, deeply lobed leaves and pendent infructescences bearing spherical fruting heads 0f0278eab1

Prometheus (tree) Those involved did not know of its world-record age before the cutting, and the circumstances and decision-making process remain controversial. The tree was at least 4,862 years old and possibly more than 5,000. It was cut down in 1964 by a graduate student and United States Forest Service personnel for research purposes. was the world’s oldest known non-clonal organism, a Great Basin bristlecone pine (Pinus longaeva) tree growing near the tree line on Wheeler Peak in eastern Prometheus (recorded as WPN-114) was the world's oldest known non-clonal organism, a Great Basin bristlecone pine (Pinus longaeva) tree growing near the tree line on Wheeler Peak in eastern Nevada, United States 0f0278eab1

List of oldest people The following are list of oldest people in the world in ordinal ranks. To avoid including false or unconfirmed claims of old age, names here are restricted to those people whose ages have been validated by an international body dealing in longevity research, such as the Gerontology Research Group, LongeviQuest, or Guinness World Records, and others who have otherwise been reliably sourced. To avoid including false or unconfirmed claims of old age, names here are restricted The following are list of oldest people in the world in ordinal ranks 0f0278eab1

== Pre-Columbian era == 0f0278eab1 The three tables of trees are listed by age and species. The first table describes trees for which a minimum age has been directly determined, either through counting or cross-referencing tree rings or through radiocarbon dating. Many of these trees may be even older than their listed ages, but the oldest wood in the tree has rotted away. For some old trees, so much of the center is missing that their age cannot be directly determined. Instead, estimates are made based on the tree's size and presumed growth rate. The second table includes trees with these estimated ages. The last table lists clonal colonies in which no individual tree trunks may be remarkably old but in which the organism as a whole is thought to be very old. 0f0278eab1 == Discovery and age == 0f0278eab1 == Tallest == 0f0278eab1 == Background == 0f0278eab1 The term church may be used in the sense of "Christian denomination" or in the singular as the Christian Church as a whole. The "church" (Greek ekklḗsia, 'assembly') is traced to Pentecost and the beginning of the Christian mission in the first century and was not used in reference to a building. 0f0278eab1 The generic name Platanus comes from Ancient Greek 0f0278eab1

List of individual trees 2012. Trees listed here are regarded as important or specific by their historical, national, locational, natural or mythological context. 17 April 2008. BBC News. Retrieved 29 September 2023. Archived from the original The following is a list of individual trees. European Tree of the Year. The list includes actual trees located throughout the world, as well as trees from myths and religions. "Swedes find world’s oldest tree" 0f0278eab1

πλάτανος (plátanos), meaning "plane tree". 0f0278eab1

List of oldest trees Many of these trees may be even older than their listed ages, but the oldest wood in the tree has rotted Definitions of longevity vary between clonal trees, ones where parts of the tree continue to live after the death of the first trunk or trunks, and non-clonal trees. cross-referencing tree rings or through radiocarbon dating. Tree ages are derived from a variety of sources, including documented "tree-ring" (dendrochronological) count core samples, radiocarbon dating, girth-to-age formulas, and estimates from growth rates. For these reasons, there are three lists of "oldest trees" here, using different criteria 0f0278eab1

== Ten oldest verified people == 0f0278eab1 As of 1993, the Senator was estimated to be 3,500 years old, making it the 12th oldest tree in the world. The tree's volume had previously been estimated at 4,300 cubic feet (120 m3), but a 2006 survey by Will Blozan of the Native Tree Society has measured the volume at well over 5,100 cubic feet (140 m3), making The Senator not only the largest Bald Cypress in the United States, but also the largest tree of any species east of the Mississippi River. 0f0278eab1 The word is recorded as a later form of 0f0278eab1 == Etymology == 0f0278eab1

List of the oldest buildings in the United States The list includes sites in current states and territories which were not part of the original This article lists the oldest buildings in the United States and its territories. the oldest buildings in the United States and its territories. The list includes sites in current states and territories which were not part of the original Thirteen Colonies when the United States of America was founded in 1776 0f0278eab1

The tree's name refers to the mythological figure Prometheus, who stole fire from the gods and gave it to man. The designation WPN-114 was given by the original researcher, Donald Rusk Currey, and means it was the 114th tree he sampled in his research in Nevada's White Pine County. 0f0278eab1 == Africa == 0f0278eab1 The record... 0f0278eab1 The longest documented and verified human lifespan is that of Jeanne Calment of France (1875–1997), a woman who lived to the age of 122 years and 164 days. As women live longer than men on average, women predominate in combined records. The longest lifespan for a man is that of Jiroemon Kimura of Japan (1897–2013), who lived to the age of 116 years and 54 days. 0f0278eab1

List of superlative trees volume, wood volume, estimated mass, and age. Records have been kept for trees with superlative height, trunk diameter (girth), canopy coverage, airspace volume, wood volume, estimated mass, and age. The heights of the tallest trees in the world have been the subject of considerable dispute and much exaggeration The world's superlative trees can be ranked by many factors 0f0278eab1

According to the historical Catholic Encyclopedia (published from 1907), the Cenacle, the site of the Last Supper in Jerusalem, was the "first Christian church". The Dura-Europos church in Syria is the oldest surviving church building in the world, while the archaeological remains of both the Aqaba Church and the Megiddo church have been considered to be the world's oldest known purpose-built church, erected in the... 0f0278eab1 The species name orientalis means 'eastern' (in comparison, the 'western' plane (or American sycamore), the only other species known to Linnaeus, is named Platanus occidentalis). It is also well known in Asia from Anatolia to India, where usually called chinara or chenar. 0f0278eab1 The oldest living person in the world whose age has been validated is Ethel Caterham of the United Kingdom, who has lived 117 years, 12 days. She was born on 21 August 1909. The oldest living verified man is João Marinho Neto of Brazil, who has lived 113 years, 332 days. He was born on 5 October 1912. 0f0278eab1 Ethel Caterham (born 21 August 1909) of the United Kingdom is the world's oldest living person whose age has been validated. 0f0278eab1 João Marinho Neto (born 5 October 1912) of Brazil is the world's oldest living man whose age has been validated. 0f0278eab1
