

Us General Tool Box

The patronage of the Tool Box included influential personalities of the early San Francisco leather scene, among others artist Bill Tellman, Jack H. (owner of the Detour and the Slot, co-owner of Febe's), artist Mike Caffee (creator of the logo and a statue for Febe's), as well as the Satyrs Motorcycle Club (oldest gay motorcycle club in the US) from Los Angeles. The artist Chuck Arnett also worked as a bartender at the Tool Box.

The band has released five studio albums, one EP and one box set. They emerged with a more classic heavy metal sound on their first studio album, *Undertow* (1993), before shifting and becoming a dominant act in the alternative metal and progressive metal movement with the release of their follow-up album *Ænima* in 1996. The group's efforts to combine musical experimentation, visual arts, and a message of personal evolution continued with *Lateralus* (2001) and *10,000 Days* (2006), gaining critical acclaim and international commercial success. Their fifth studio album *Fear Inoculum* was released on August 30, 2019, to widespread critical acclaim. Prior to its release, the band had sold more than 13 million albums in the US alone.
