It is not known when the term "cinnamon sugar" first came about. Some books, like Bernard Fantus's "Candy Medication" in 1915, mention it. Fantus writes about "red cinnamon sugar" as one of the products created for medical purposes. But others, like an 1891 book of vegetarian cooking, do not. The latter book, in describing a recipe for apple custard, describes how "a little cinnamon sugar can be shaken over the top" is the appropriate topping. Apart from this, one of the earliest uses of the term "cinnamon sugar" is within the "book of cookery" used by Martha Washington and her descendants, purchased by the Historical Society of Pennsylvania in 1892. In a recipe for stewing warden's pears, the spice mixture is directly mentioned: "Boyle them first in faire water, then pare & stew them between 2 dishes of cinnamon sugar and rose water, or the same seasoning you may put them in a pie and bake them." 3712f34f74
