

Sharp Pain Left Side Of The Stomach

Middle back pain It has a few potential causes, ranging from muscle strain to collapse of a vertebra or rare serious diseases. back pain, also known as thoracic back pain, is back pain that is felt in the region of the thoracic vertebrae, which are between the bottom of the neck Middle back pain, also known as thoracic back pain, is back pain that is felt in the region of the thoracic vertebrae, which are between the bottom of the neck and top of the lumbar spine. The upper spine is very strong and stable to support the weight of the upper body, as well as to anchor the rib cage which provides a cavity to allow the heart and lungs to function and protect them 30ac87e66a

The thoracic spine begins at the base of the neck and extends to the middle of the trunk. Any pain in this area is considered "middle back pain". 30ac87e66a Swallowing consists of two distinct but interrelated processes: 1. Moving food and liquids from the mouth into the stomach through a set of coordinated muscle movements of the mouth larynx, pharynx and the esophagus; 2. Protecting the airway to prevent food and liquids from entering the lungs. 30ac87e66a Management of chest pain is based on the underlying cause. Initial treatment often includes the medications aspirin and nitroglycerin. The response to... 30ac87e66a == Signs and symptoms == 30ac87e66a Infection of a tumor or its surrounding tissue can cause rapidly escalating pain, but is sometimes overlooked as a possible cause. One study found that infection was the cause of pain in four percent of nearly 300 cancer patients referred for pain relief. Another report described seven patients, whose previously well-controlled pain escalated significantly over several days. Antibiotic treatment produced pain relief in all patients within three days. 30ac87e66a

Causes of cancer pain Back pain may be referred from the pancreas, or may indicate the cancer Cancer pain can be caused by pressure on, or chemical stimulation of, specialised pain-signalling nerve endings called nociceptors (nociceptive pain), or by damage or illness affecting nerve fibers themselves (neuropathic pain). on the stomach. Back pain may be present and, if intense, may spread left and right 30ac87e66a

== Structure == 30ac87e66a The most common symptom associated with bloating is a sensation that the abdomen is full or distended. Rarely, bloating may be painful or... 30ac87e66a The exact symptoms associated with middle back pain will depend upon the underlying cause. Most middle back pain is not serious in nature. However, it does tend to have more serious pathology associated with it than pain in the neck or low... 30ac87e66a

Flexible Endoscopic Evaluation of Swallowing with Sensory Testing FEESST was invented by Dr. Jonathan E. Aviv MD Flexible Endoscopic Evaluation of Swallowing with Sensory Testing (FEESST), or laryngopharyngeal sensory testing, is a technique used to directly examine motor and sensory functions of swallowing so that proper treatment can be given to patients with swallowing difficulties to decrease their risk of aspiration (food and liquids going into the lungs instead of the stomach) and choking. decrease their risk of aspiration (food and liquids going into the lungs instead of the stomach) and choking 30ac87e66a

== Symptoms and signs == 30ac87e66a Pain is the most common reason for physician consultation in most developed countries. It is a major symptom in many medical conditions, and can interfere with a person's quality of life and general functioning. People in pain experience impaired concentration, working memory, mental flexibility, problem-solving and information processing speed, and are more likely to experience irritability, depression, and anxiety. 30ac87e66a == Definition and symptoms == 30ac87e66a Various types of hernias can occur, most commonly involving the abdomen, and specifically the groin. Groin hernias are most commonly inguinal hernias but may also be femoral hernias. Other types of hernias include hiatus, incisional, and umbilical hernias. Symptoms are present in about 66% of people with groin hernias. This may include pain or discomfort in the lower abdomen, especially with coughing, exercise, or urinating or defecating. Often, it gets worse throughout the day and improves when lying down. A bulge may appear at the site of hernia, that becomes larger when bending down. 30ac87e66a == Infection == 30ac87e66a

Signs and symptoms of pregnancy If a person is concerned about their symptoms they should be encouraged to speak with an appropriate healthcare professional. Pregnancy symptoms may be categorized based on trimester as well as region of the body affected. Each pregnancy can be quite different and many people do not experience the same or all of the symptoms. Depending on severity, common symptoms in pregnancy can develop into complications. Round Ligament pain - Round ligament pain commonly occurs in the second trimester and manifests as a sudden, sharp pain in the groin area or lower Signs and symptoms of pregnancy are common, benign conditions that result from the changes to the body that occur during pregnancy. pregnancy. Signs and symptoms of pregnancy typically change as pregnancy progresses, although several symptoms may be present throughout 30ac87e66a

Many of the early signs of pregnancy will be similar to symptoms that come right before a period, and it can be hard to tell the difference. 30ac87e66a In most cases, the pain is likely to be self-limiting; in that case no diagnostic tests are required, and simple pain relief is sufficient. More severe and prolonged cases may require more specific pain management strategies and occasionally investigations for underlying medical diseases. 30ac87e66a Simple over-the-counter pain medications are useful in 20% to 70% of cases of common acute... 30ac87e66a

Heartburn It is a symptom that is commonly linked to acid reflux and is often triggered by food. Heartburn affects 25% of the population at least once a month. Causes include acid reflux, gastroesophageal reflux disease (GERD), damage to the esophageal lining, bile acid, mechanical stimulation to the esophagus, and esophageal hypersensitivity. Lying down, bending, lifting, and performing certain exercises can exacerbate heartburn. sharpness, soreness of the stomach, heartburning" and "a sharp gnawing pain at the orifice of the stomach". Throughout the 1500s to the 1800s, stonecrop, chewed Heartburn is a burning sensation felt behind the breastbone 30ac87e66a

Bloating can also be caused by chronic conditions and in rare cases can be a reoccurring life-threatening problem. 30ac87e66a Endoscopy and esophageal pH monitoring can be used to evaluate heartburn. Some causes of heartburn, such as GERD, may be diagnosed based on symptoms alone. Potential differential diagnoses for heartburn include motility disorders, ulcers, inflammation of the esophagus, and medication side effects. Lifestyle changes, such as losing weight and avoiding fatty foods, can improve heartburn. Over-the-counter alginates or antacids can help with mild or occasional heartburn. Heartburn treatment primarily involves antisecretory medications like H2 receptor antagonists (H2RAs) and proton-pump inhibitors (PPIs). 30ac87e66a

Bloating In most cases it does not require serious medical attention or treatment. A person may have feelings of tightness, pressure or fullness in the stomach; it may or may not be accompanied by a visibly distended abdomen. Pains that are due to bloating will feel sharp and cause the stomach to cramp. These pains may occur anywhere in the body and can Abdominal bloating (or simply bloating) is a short-term disease that affects the gastrointestinal tract. Bloating is generally characterized by an excess buildup of gas, air or fluids in the stomach. Bloating can affect anyone of any age range and is usually self-diagnosed. Although the term bloating is usually used interchangeably with abdominal distension, these symptoms probably have different pathophysiological processes, which are not fully understood. shortness of breath 30ac87e66a

== Early pregnancy == 30ac87e66a Groin hernias occur more often on the right than left side. The main concern is bowel strangulation, where the blood supply to part of the bowel is blocked. This usually produces severe pain and tenderness... 30ac87e66a

Pain The International Association for the Study of Pain defines pain as "an Pain is a distressing bodily feeling often caused by intense or damaging stimuli. The International Association for the Study of Pain defines pain as "an unpleasant sensory and emotional experience associated with, or resembling that associated with, actual or potential tissue damage. Pain is a distressing bodily feeling often caused by intense or damaging stimuli. " 30ac87e66a

Pain motivates animals to withdraw from damaging situations, to protect a damaged body part while it heals, and to avoid similar experiences in the future. Most pain resolves once the noxious stimulus is removed and the body has healed, but it may persist despite removal of the stimulus and apparent healing of the body. Sometimes pain arises in the absence of any detectable stimulus, damage or disease. 30ac87e66a

Hernia Groin hernias occur more often on the right than left side. The main concern is A hernia (pl. : hernias or herniae, from Latin, meaning 'rupture') is the abnormal exit of tissue or an organ, such as the bowel, through the wall of the cavity in which it normally resides. may appear at the site of hernia, that becomes larger when bending down. The term is also used for the normal development of the intestinal tract, referring to the retraction of the intestine from the extra-embryonal navel coelom into the abdomen in the healthy embryo at about 7 1/2 weeks 30ac87e66a

Chest pain Pain due to insufficient blood flow to the heart is also called angina pectoris. It may be described as sharp, dull, pressure, heaviness or squeezing Chest pain is pain or discomfort in the chest, typically the front of the chest. It may be described as sharp, dull, pressure, heaviness or squeezing. Associated symptoms may include pain in the shoulder, arm, upper abdomen, or jaw, along with nausea, sweating, or shortness of breath. It can be divided into heart-related and non-heart-related pain. Chest pain is pain or discomfort in the chest, typically the front of the chest. Those with diabetes or the elderly may have less clear symptoms 30ac87e66a

Colic flexures supply from the superior mesenteric artery. The left colic flexure or splenic flexure (as it is close to the spleen) is the sharp bend between the transverse In the anatomy of the human digestive tract, there are two colic flexures, or curvatures in the transverse colon. The right colic flexure is also known as the hepatic flexure, and the left colic flexure is also known as the splenic flexure 30ac87e66a

FEESST was invented by Dr. Jonathan E. Aviv MD, FACS in 1993, and has been used by otolaryngologists (ear, nose and throat doctors), pulmonologists (lung doctors), gastroenterologists (stomach and digestion doctors), intensivists (intensive care specialists) and speech-language pathologists for several decades. 30ac87e66a This natural process of swallowing can be disrupted in many ways. The problem can occur when the movements involved in swallowing are restricted due to a tumor, any type of blockage, or paralysis after a... 30ac87e66a Serious and relatively common causes include acute coronary syndrome such as a heart attack (31%), pulmonary embolism (2%), pneumothorax, pericarditis (4%), aortic dissection (1%) and esophageal rupture. Other common causes include gastroesophageal reflux disease (30%), muscle or skeletal pain (28%), pneumonia (2%), shingles (0.5%), pleuritis, traumatic and anxiety disorders. Determining the cause of chest pain is based on a person's medical history, a physical exam and other medical tests. About 3% of heart attacks, however, are initially missed. 30ac87e66a The first step for management is to find a treatment for the underlying causes that produce it through a detailed medical history and a physical examination. The discomfort can be alleviated by the use of certain drugs and dietary modifications. 30ac87e66a
