

Les 7 Maladies Infantiles

Hélène Sosnowska 1889. 1889. Traitement des maladies des femmes par la méthode de Thure Hélène Sosnowska (born Helena Goldspiegel; 13 February 1864 – 31 January 1942), also known as Hélène Goldspiegel-Sosnowska, was a Polish-French gynaecologist, medical writer and social reformer. In 1888 she defended a thesis on hysteria in children under the supervision of Jean-Martin Charcot, among the early medical doctorates awarded to women at the faculty. Born into a Jewish family in Warsaw, she settled in Paris and studied at the University of Paris Faculty of Medicine. She established a gynaecological practice in Paris and wrote on the Thure-Brandt method, uterine disease, clinical techniques, vegetarianism and fasting. Du traitement manuel des maladies des femmes selon la méthode de Thure Brandt 2a66274070

At the outbreak of the Franco-Prussian War in 1870, he joined the French Army. At the age of 29 he became Chair of Military Diseases and Epidemics at the École de Val-de-Grâce. At the end of his tenure in 1878 he worked in Algeria, where he made his major achievements. He discovered that the protozoan parasite Plasmodium was responsible for malaria, and that Trypanosoma caused trypanosomiasis or African sleeping sickness. In 1894 he returned to France to serve in various military health services. In 1896 he joined Pasteur Institute as Chief of the Honorary Service, from where he received the Nobel Prize. He donated half of his Nobel prize money to establish the Laboratory of Tropical Medicine at the Pasteur Institute. In 1908, he founded the Société de Pathologie... 2a66274070

Charles Louis Alphonse Laveran Paris 1875 Trypanosomes et Trypanosomiasés. Paris 1884 Traité des maladies et épidémies des armées. Masson Charles Louis Alphonse Laveran (18 June 1845 – 18 May 1922) was a French physician who won the Nobel Prize in Physiology or Medicine in 1907 for his discoveries of parasitic protozoans as causative agents of infectious diseases such as malaria and trypanosomiasis. palustres avec la description des microbes du paludisme. Following his father, Louis Théodore Laveran, he took up military medicine as his profession. He obtained his medical degree from University of Strasbourg in 1867 2a66274070

Neurosis was a cause of some cases of hysteria. He wrote in his book Leçons sur les maladies du système nerveux, (1885-1887) (and published in English as Clinical 2a66274070

Misandry Midsummer-Night's Dream). In 2020, the explicitly misandric essay *Moi les hommes, je les déteste* (I Hate Men) by the French writer Pauline Harmange caused 2a66274070

Sosnowska took part in international medical congresses and worked in Paris hospitals during World War I. She also supported Polish medical trainees in Paris. She was active in temperance and vegetarian organisations, and belonged to the Society of Breastfeeding and the Society of Kinesitherapy. In the French Vegetarian Society she served on the committee from 1904, became vice-president in 1907 and president in 1933. She married the Polish engineer and socialist activist Casimir Martin Sosnowski, with whom she had two children, and was buried with him at Père... 2a66274070
