Lost in Translation (film) It does not use mainstream narrative conventions and is atypical in its depiction of romance. Bill Murray stars as Bob Harris, a fading American movie star who is having a midlife crisis when he travels to Tokyo to promote Suntory whiskey. He befriends another disillusioned American, Charlotte (Scarlett Johansson), a recent college graduate who has been married for two years. The film explores themes of alienation and disconnection against a backdrop of cultural displacement in Japan. story, like dirty wallpaper in a cheap hotel. To Lost in Translation is a 2003 romantic comedy drama film written and directed by Sofia Coppola. How funny is it to put the 6ft-plus Bill Murray in an elevator with a number of overly small Japanese 522b37fdda

Largest body parts The largest animals on the planet are not the only ones to have large body parts, with some smaller animals actually having one particularly enlarged area of the body. 8m or 6ft long) of any land mammal. The longest tentacles belong to the lion's mane The largest body part is either the largest given body part across all living and extinct organisms or the largest example of a body part within an existing species. 4 m or 7. possesses the longest neck (up to 2. 9 ft long) and legs (1 522b37fdda

== Largest extant fish == 522b37fdda == Plane tickets == 522b37fdda Thomas Paul Aspinall was born on 11 April 1993 in Salford, in the Greater Manchester ceremonial county of North West England. He followed his father's footsteps by beginning to train martial arts when he was seven years old at the Leigh Self Defence Studio in Leigh. After being trained in catch wrestling and boxing, Aspinall transitioned to jiu-jitsu. He has won the British Open in Brazilian jiu-jitsu in all belt classes except black belt. After his father became the jiu-jitsu instructor of Team Kaobon, Aspinall grew interested in mixed martial arts and transitioned into the sport. In the year after completing school at age 16, Aspinall grew from 5 feet 8 inches (1.73 m) to 6 feet 5 inches (1.96 m), causing intense growing pains. 522b37fdda

== Background == 522b37fdda The result was delete. The arguments to keep are very poor in comparison with those for deletion. Nobody has succesfully refuted the chief reason for deletion - that the list is subjective and there is no accepted single definition of what to be 'tall' means. Note I have discounted (and noted) a few arguments lower down the AFD, as they are based on no arguments applicable to Wikipedia policy or guideline. Proto:► 10:39, 30 January 2007 (UTC)reply 522b37fdda Coppola started writing the film after spending time in Tokyo and becoming fond of the city. She began forming a story about two characters experiencing a "romantic melancholy" in the Park Hyatt Tokyo, where she stayed while promoting her first feature film, the 1999 drama The Virgin Suicides. Coppola envisioned Murray playing the role of Bob from the beginning and tried to recruit him for months. While Murray eventually agreed to play the part, he did not sign a contract. Coppola spent a quarter of the film's \$4 million budget without knowing if he would arrive. 522b37fdda

Wikipedia:Reference desk/Archives/Miscellaneous/2009 August 25 sports that women could do well (the average height and weight for baseball players is quite reasonable, like ~6ft and ~180lbs for non-pitchers), but I = August 25 = 522b37fdda

Assured clear distance ahead rolling resistance, lift, and relativity as a vehicle's great momentum and weight dominate these factors; they increase the complexity of the formulas while In legal terminology, the assured clear distance ahead (ACDA) is the distance ahead of any terrestrial locomotive device such as a land vehicle, typically an automobile, or watercraft, within which they should be able to bring the device to a halt. Satisfying the ACDA rule is necessary but not sufficient to comply with the more generalized basic speed law, and accordingly, it may be used as both a layman's criterion and judicial test for courts to use in determining if a particular speed is negligent, but not to prove it is safe. The rule is a precautionary trivial burden required to avert the great probable gravity of precious life loss and momentous damage. As a spatial standard of care, it also serves as required explicit and fair notice of prohibited conduct so unsafe speed laws are not void for vagueness. It is one of the most fundamental principles governing ordinary care and the duty of care for all methods of conveyance, and is frequently used to determine if a driver is in proper control and is a nearly universally implicit consideration in vehicular accident liability. The concept has transcended into accident reconstruction and engineering 522b37fdda
