Chen, a fitness enthusiast, drew inspiration from a product development framework outlined in a book by Nir Eyal, applying its model of trigger, action, investment, and reward to the gym experience, identifying the uncertainty of not knowing what to do as the entry point. He sought to address this by creating an app that would provide personalized workout guidance through a mobile device. "I wanted my phone to just tell me which muscles I needed to engage," Chen said in an interview. f77b1a2e51 == History == f77b1a2e51
