Privacy concerns with Facebook past. In response to these growing privacy concerns, some pressure groups and government agencies have increasingly asserted the users' right to privacy and to be able to control their personal data. These stem partly from the company's revenue model that involves selling information collected about its users for many things including advertisement targeting. As a result, individuals' identities and private information have sometimes been compromised without their permission. In 2016, Facebook stated "Facebook does not use your phone's microphone to inform ads or to change what you see in News Feed. Meta has also been a part of many data breaches that have occurred within the company. In addition, employers and other organizations/individuals have been known to use Meta for their own purposes. These issues and others are further described including user data concerns, vulnerabilities in the company's platform, investigations by pressure groups and government agencies, and even issues with students. " a spokeswoman said Facebook and other services by Meta Platforms (doing business as Meta) have faced a number of privacy concerns e50366a6dd
