

How To Find Third Proportion

According to Alan Gibson, who reviewed the book in The Review of Politics, the book consists of five core arguments:

With few exceptions, the U.S. system has two major parties which have won, on average, 98% of all state and federal seats. According to Duverger's law, two main political parties emerge in political systems with plurality voting in single-member districts. In this case, votes for minor parties can potentially be regarded as splitting votes away from the most similar major party. Third-party vote splitting exceeded a president's margin of victory in three elections: 1844, 2000, and 2016.
