== Film derivatives == 7cea8d15b6 Conspiracy theories are usually resistant to falsification either by evidence against them or a lack of evidence for them. They are reinforced by circular reasoning: both evidence against the conspiracy and absence of evidence for it are misinterpreted as evidence of its truth. Psychologist Stephan Lewandowsky observes "the stronger the evidence against a conspiracy, the more the conspirators must want people to believe their version of events." As a consequence, the conspiracy becomes a matter... 7cea8d15b6

Philosophy of happiness Thus, philosophers usually explicate on happiness as either a state of mind, or a life that goes well for the person leading it. Given the pragmatic concern for the attainment of happiness, research in psychology has guided many modern-day philosophers in developing their theories. Some philosophers believe happiness can be understood as the moral goal of life or as an aspect of chance; indeed, in most European languages the term happiness is synonymous with luck. Laërtius relates that Antisthenes was fond of saying: "I would rather go mad than feel pleasure. " He maintained that virtue was sufficient in itself to The philosophy of happiness is the philosophical concern with the existence, nature, and attainment of happiness 7cea8d15b6
