European rabbits prefer grassland habitats and are herbivorous, mainly feeding on grasses and leaves, though they may supplement their diet with berries, tree bark, and field crops such as maize. They are prey to a variety of predators, including birds of prey, weasels, cats, and canids. The European rabbit's main defence against predators is to run and hide, using vegetation and its own burrows for cover. It is well known for digging networks of burrows, called warrens, where it spends most of its time when not feeding. The European rabbit lives in social groups centred around territorial females. European rabbits in an established social group will rarely stray far from their warren, with female rabbits leaving the warren mainly to establish nests where they will raise... 17ed3b0eb9

Following positive feedback from the audience and interest from Chris Prynosi, a 7-minute pilot was developed for the pitch from the Cartoon Network in 2017, for a full series. It was greenlit for the 95-week deadline for the Television release schedule. The show's animation was done in Adobe Animate and After Effects, produced by Titmouse, Inc. with the support from animation studio Inspidea. Its music was done by Mint Potion Studios, led by Jake Kaufman. The names of the Argenté breeds (Brun, Noir, etc.) refer not to the top-colour (which is always silver), but rather to the lower portions of the hair shaft. At birth, Argentés are of a solid color, with adult colouring beginning to show as early as six weeks and as late as four months of age. Argenté rabbits are small and neat with well-developed hind quarters and slightly arched backs. Strong traits of being cobby or racy are undesirable in Argentés. With broad heads and straight front legs, Argentés are short and fine in bone. Due to their good nature, they are known as excellent pets. Walt Disney Studios purchased the film rights to the novel shortly after its publication in 1981. Price and Seaman wrote two drafts of the script before Disney brought in executive producer Steven Spielberg and his production company, Amblin Entertainment. Zemeckis was brought on to direct and Canadian-British animator Richard Williams was hired to supervise the animation sequences. Production was moved from Los Angeles to Elstree Studios in England to accommodate Williams and his group of animators... In 2003, Buena Vista Games pitched a concept for an Oswald-themed video game to then-

Disney President and future-CEO Bob Iger, who became committed to acquiring the rights to Oswald. In 2006, The Walt Disney Company acquired the trademark of Oswald and the rights to the Disney-era films (with NBCUniversal effectively trading Oswald for the services of Al... 17ed3b0eb9
