

Advanced Materials Impact Factor

Materials Science and Engineering B According to the Journal Citation Reports, the journal has a 2025 impact factor of 5. The current editor-in-chief is Jing Xia (University of California Irvine). It aims at providing a leading international forum for material researchers across the disciplines of theory, experiment, and device applications. journals - Materials Science and Engineering: B — Advanced Functional Solid-State Materials is a peer-reviewed scientific journal. It is the section of Materials Science and Engineering dedicated to "calculation, synthesis, processing, characterization, and understanding of advanced quantum materials" and is published monthly by Elsevier. "Materials Science and Engineering: B Journal - Elsevier". www. 7 4f6527dc8f

== Scope == 4f6527dc8f

Advanced Materials Interfaces Advanced Materials Interfaces is a peer-reviewed scientific journal covering materials science, including research on functional interfaces and surfaces Advanced Materials Interfaces is a peer-reviewed scientific journal covering materials science, including research on functional interfaces and surfaces and their specific applications 4f6527dc8f

In addition to original research papers, the journal publishes technical papers, review papers, and research notes. News accounts related to new materials and their processing are also included. Furthermore, some papers originally published in Japanese in the Journal of the Japan Society for Composite Materials are translated and published in this journal. 4f6527dc8f The journal was established in 1988 as a supplement to the general chemistry journal Angewandte Chemie and remained part of that journal for the first eighteen months of its existence. Founder and editor-in-chief was Peter Goelitz (then editor of Angewandte Chemie). The current editors-in-chief are Irem Bayindir-Buchhalter and Esther Levy. 4f6527dc8f == References == 4f6527dc8f

Advanced Composite Materials (journal) Novel fabrication techniques for composites and composite structural components are also included. Journal Citation Reports, the journal has a 2020 impact factor of 2. 870. 2020 Journal Citation Reports. "Advanced Composite Materials". It is published by Taylor & Francis on behalf of the Japan Society for Composite Materials and the Korean Society for Composite Materials. Web of Science Advanced Composite Materials is a bimonthly peer-review scientific journal that was established in 1991. The journal covers all scientific and technological aspects of composite materials and composite material structures, including physical, chemical, mechanical, and other properties of advanced composites as well as microscopic to macroscopic behavior studied both experimentally and theoretically 4f6527dc8f

Advanced Materials According to the Journal Citation Reports, the journal has a 2023 impact factor of 26. It includes communications, reviews, and feature articles on topics in chemistry, physics, nanotechnology, ceramics, metallurgy, and biomaterials. 8. It includes communications, reviews, and feature articles on Advanced Materials is a weekly peer-reviewed scientific journal covering materials science. Advanced Materials is a weekly peer-reviewed scientific journal covering materials science 4f6527dc8f

The journal's content focusses on the development of synthetic and natural materials for orthopaedic, maxillofacial, cardiovascular, neurological, ophthalmic and dental applications. Further, biocompatibility studies, nanomedicine, studies on regenerative medicine, computer modelling, and other advanced experimental methodologies are included. 4f6527dc8f

ACS Applied Materials & Interfaces Citation Reports, the journal has a 2023 impact factor of 8. 5. 2023 Journal Citation Reports. ACS Applied Energy Materials "ACS Applied Materials & Interfaces" 4f6527dc8f

Advanced Optical Materials The founding editor-in-chief is Peter Gregory. Retrieved 2019-10-27. "Journals Ranked by Impact: Materials Science, Multidisciplinary" Advanced Optical Materials is a monthly peer-reviewed scientific journal published by Wiley-VCH. It was established in 2013, after a section with the same name had been published since March 2012 in Advanced Materials. "Source details: Advanced Optical Materials". It covers all aspects of light-matter interactions. Scopus Preview. Elsevier 4f6527dc8f

The journal is abstracted and indexed in: 4f6527dc8f The journal is abstracted and indexed by: 4f6527dc8f According to the Journal Citation Reports, the journal has a 2025 impact factor of 5.7. 4f6527dc8f The journal covers all aspects of materials science, including theoretical analysis, synthesis and processing, phase and structure analyses, characterization, properties, engineering, and applications. It covers advances in research on solids, liquids and colloids, with emphasis on the interdisciplinary nature of materials science and issues at the forefront of the field, such as nano-,

bio- and eco- and energy materials. 4f6527dc8f

Journal of Biomedical Materials Research It was established in 1967. In 2002, it split into two parts, Journal of Biomedical Materials Research Part A, and Journal of Biomedical Materials Research Part B. In 1990, it absorbed the journal Journal of Applied Biomaterials (1990–1995). In 1974, it absorbed Biomedical Materials Symposium (1971–1974). 2020 impact factor of 4.396, ranking it 25th out of 90 in the category 'Engineering, Biomedical' and 18th out of 41 in the category 'Materials Science The Journal of Biomedical Materials Research is a peer-reviewed scientific journals of biomedical material science. The two parts are published by John Wiley & Sons 4f6527dc8f

Coverage of this journal encompasses all topics pertaining to materials science. Topical coverage includes photovoltaics, organic electronics, carbon materials, nanotechnology, liquid crystals, magnetic materials, surfaces and interfaces, and biomaterials. Publishing formats include original research papers, feature articles and highlights. 4f6527dc8f The journal is abstracted and indexed in: 4f6527dc8f

Journal of Materials Science: Materials in Medicine 896. Journal Citation Reports, the Journal of Materials Science: Materials in Medicine has a 2020 impact factor of 3. It is an offshoot of the Journal of Materials Science, focusing specifically on materials in medicine and dentistry. The journal's content focusses on The Journal of Materials Science: Materials in Medicine is a peer-reviewed scientific journal published by Springer Science+Business Media. The founding editor in chief was William Bonfield; the current editor-in-chief is Luigi Ambrosio (National Research Council (CNR) Naples, Italy) 4f6527dc8f

Advanced Functional Materials (Elsevier) Advanced Materials Advanced Engineering Materials Small Small Science Journal of Materials Chemistry Chemistry of Materials Nature Materials "AFM Advanced Functional Materials is a peer-reviewed scientific journal, published by Wiley-VCH. Established in February 2001, the journal began to publish monthly in 2002 and moved to 18/year in 2006, biweekly in 2008, and weekly in 2013 4f6527dc8f

== Part A == 4f6527dc8f == Scope == 4f6527dc8f According to the Journal Citation Reports, the Journal of Materials Science: Materials in Medicine has a 2020 impact factor of 3.896. 4f6527dc8f == History == 4f6527dc8f == Abstracting and indexing == 4f6527dc8f

Science and Technology of Advanced Materials Currently STAM is an electronic journal, its articles are continuously published online. In 2008 it became an open access journal through the sponsorship of the National Institute for Materials Science (NIMS). In 2008 it became Science and Technology of Advanced Materials is a peer-reviewed scientific journal in materials science that was established in 2000. Its sister journal, STAM Methods, has been launched in 2021. The journal is international; it is managed by NIMS, which was joined in 2014 by the Swiss Federal Laboratories for Materials Science and Technology (Empa). Science and Technology of Advanced Materials is a peer-reviewed scientific journal in materials science that was established in 2000 4f6527dc8f

Originally the journal appeared monthly; it switched to fifteen issues in 1997, eighteen issues in 1998, and twenty-four issues in 2000. In 2009, it started to publish weekly, with forty-eight issues per year. Since 2018, it publishes fifty-two issues per year. 4f6527dc8f It has been published under other titles since 1985. 4f6527dc8f == Scope == 4f6527dc8f == Abstracting and indexing == 4f6527dc8f
