

Highest Population Density State In India

Population density is defined as the population divided by land area. Data are from the US Census unless... c524a75a1a

List of U.S. states and territories by population density On the other hand, it is This is a list of the 50 states, the 5 territories, and the District of Columbia of the United States of America by population density, population size, and land area. It also includes a sortable table of density by states, territories, divisions, and regions by population rank and land area, and a sortable table for density by states, divisions, regions, and territories in square miles and square kilometers. S. needed] For comparison, the population density of the U. is 1/15 that of South Korea and the Netherlands and 1/12 that of India c524a75a1a

== History == c524a75a1a Before 1976, the area of Ghaziabad district was categorized as Ghaziabad Tehsil of Meerut district. On 14 November 1976, then Chief Minister of Uttar Pradesh N.D. Tiwari declared it as a separate district with an area of 2550 km2. c524a75a1a In September 2011, the Hapur tehsil was split off (from Ghaziabad district) to form Hapur District by then Chief Minister Mayawati, finally reducing the size of Ghaziabad district to 1273 km2 and the revised population is 1,422,000. c524a75a1a Environmental issues are one of the primary causes of disease, health issues and long term livelihood impact for India. c524a75a1a == Law and policies == c524a75a1a

Ghaziabad district This district is part of Meerut Division. The city of Ghaziabad is the administrative headquarters of the district. It has the highest density of population in the state with 4060 persons per square km. It is also a core part of the National Capital Region. It is also second in population growth Ghaziabad district (pronounced [ʁaːziːaːˈbaːd̪ ˈzɪla]) is a largely suburban district of Uttar Pradesh state in northern India. It has become a major bedroom community for Delhi. total population of UP c524a75a1a

Hyderabad district, India It is headed by a district collector who is drawn from the IAS cadre and is appointed by the state government. The district shares boundaries with Ranga Reddy and Medchal districts. Old MCH area, which is central region of Hyderabad city comes under this district. It is the smallest of all the districts in the state, but has the highest population density. It is the smallest of all the districts in the state, but has the highest population density. is appointed by the state government. Old MCH area, which Hyderabad district is a district in the state of Telangana in India that contains a part of the metropolitan area of Hyderabad c524a75a1a

The District officials include c524a75a1a Tree density is the quantification of how closely the trees are growing in a hectare area. It is not the exact number of trees in the forest but, serves as an estimate to the foresters. The tree density of an area should be mentioned by the working Plan officer (WPO) or Divisional Forest Officer (Working Plan) after his field inspection of the lowest possible forest unit or compartment in the CH-4 form of compartment history. The compartment history forms are to be maintained at the Forest range and Forest division offices. The working Plan code-2014 mentions in para 105 that the density should also be mentioned on the stock map prepared by the WPO/DFO in decimal figures. The crown density is similar to the tree density. A forest area with a density of more than 0.4 is considered a good forest area and a forest area with less than 0.4 tree density is considered degraded forest. c524a75a1a == District Administration == c524a75a1a

Demographics of India 428 billion on 1 July 2023, surpassing that of China. According to the United Nations' World Population India is the most populous country in the world, comprising approximately one-sixth of the world population. India is the most populous country in the world, comprising approximately one-sixth of the world population. According to the United Nations' World Population Dashboard, India's population reached slightly over 1 c524a75a1a

India is highly diverse, hosting thousands of ethnic groups and four major language families: Indo-European, Dravidian, Austroasiatic, and... c524a75a1a India remains a relatively young country, though it is undergoing a gradual demographic transition. As of 2024, the median age was approximately 29.8 years, compared to 40.2 in China. The United Nations Population Fund (UNFPA) estimates that 68% of the population is between 15 and 64 years old, creating a potential "demographic dividend" where a large working-age population can drive economic growth. However, the number of children is declining; the under-5 population peaked in 2007 and the under-15 cohort peaked in 2011. c524a75a1a == Types == c524a75a1a

Environmental issues in India According to data collected and environmental assessments studied by World Bank experts, between 1995 through 2010, India has made some of the fastest progress in addressing its environmental issues and improving its environmental quality in the world. Nature is also causing some drastic effects on India. Air pollution, water pollution, garbage, domestically prohibited goods and pollution of the natural environment are all challenges for India. However, pollution still remains a major challenge and opportunity for the country. population density similar to or higher than that of India, yet each enjoying environmental quality vastly superior to India's, suggests population density There are multiple environmental issues in India. The situation was worse between 1947 through 1995 c524a75a1a

Since the 1990s, major efforts have been underway to modernize the country's road infrastructure. As of 31 March 2020, 70.00% of Indian roads were paved. As of 31 December 2023, India had completed and placed into use over 35,000 kilometres (22,000 mi) of four or more lane highways connecting many of its major manufacturing, commercial and cultural centres. According to the Ministry of Road Transport... c524a75a1a == States and territories by population density == c524a75a1a

Human population planning The practice, traditionally referred to as population control, had historically been implemented mainly with the goal of increasing population growth, though from the 1950s to the 1980s, concerns about overpopulation and its effects on poverty, the environment and political stability led to efforts to reduce population growth rates in many countries. [citation Human population planning is the practice of managing the growth rate of a human population. considering a list of countries ranked in order by population density, there is no correlation between population density and poverty and starvation. More recently, however, several countries such as China, Japan, South Korea, Russia, Iran, Italy, Spain, Finland, Hungary and Estonia have begun efforts to boost birth rates once again, generally as a response to looming demographic crises c524a75a1a

Roads in India 54 km, 0. 09 km, 0. 13 kilometres (3. 34 mi), Brazil (0. 6 kilometres (2. 19 mi) of roads per 1,000 people, which is much lower

than United States 20. As of June 2026, India has the largest road network in the world. 21 mi) of roads per square kilometre of land, the quantitative density of India's road network is equal to that of Hong Kong, and substantially higher than the United States (0. 2 mi). At (1. 94 km, 1. 44 mi), China (0. 5 kilometres (12. largest road network in the world. 056 mi). 7 mi) but higher than that of China 3. India has a network of over 6,617,900 km (4,112,200 mi) of roads. 71 km, 0 c524a75a1a

While population planning can involve measures that improve people's lives by giving them greater control of their reproduction, a few programs, such as the Chinese government's "one-child policy and two-child policy", have employed coercive measures. c524a75a1a The population density of the United States is lower than that of many other countries because of the United States' large land area. Large swathes of land are sparsely populated in parts of the US, such as the east-to-west stretch extending from Minneapolis to the outskirts of Seattle, or the north-to-south expanse from northern Montana to southern New Mexico, excluding Denver and Albuquerque. For comparison, the population density of the U.S. is 1/15 that of South Korea and the Netherlands and 1/12 that of India. On the other hand, it is over 8 times higher than that of Canada and over 9.5 times higher than that of Australia. c524a75a1a The district was further reduced in size to 1933 km² on 6 September 1997 when the Government of Uttar Pradesh carved out the blocks of Dadri and Bisakh to create Gautam Buddh Nagar district. c524a75a1a

List of districts in India As of 9 December 2025, there are a total of 800 districts in India. In some cases, districts are further subdivided into subdivisions, and in others directly into tehsils or talukas. On 1 November 2014, A district (zila), also known as a revenue district, is an administrative division of an Indian state or union territory. name, district headquarters, 2011 census population, area in square kilometres, and the population density per square kilometre. This count includes Mahe and Yanam, which are Census districts rather than administrative districts as well as the temporary Maha Kumbh Mela district, but excludes the Itanagar Capital Complex, which has a Deputy Commissioner but is not an official district c524a75a1a

== Tree density == c524a75a1a == History == c524a75a1a Between 1975 and 2010, the population doubled to 1.2 billion. While the population continues to grow, the rate has slowed significantly from 2.3% annually (1972–1983) to roughly 0.89% in 2023. Current projections suggest the population will reach 1.7 billion by 2050. c524a75a1a

Forest cover by state in India in India by state. Tree density is the quantification of how closely the trees are growing in a hectare area. It is not the exact number of trees in the List of how many forests and percentage of forest cover in India by state c524a75a1a

Punjab, India The main ethnic group are the Punjabis, with Sikhs (57. Punjabi, written in the Gurmukhi script, is the most widely spoken and the official language of the state. Forming part of the larger Punjab region of the Indian subcontinent, the state is bordered by the Indian Punjab (pun-JAHB; Panjabi: pañjāba, pronounced [pənˈdʒaːb]) is a state in northwestern India. 53% of India's total geographical area, making it the 19th-largest Indian state by area out of 28 Indian states (20th largest, if Union Territories are considered). Chandigarh serves as a shared capital for Punjab as well as Haryana. With over 27 million inhabitants, Punjab is the 16th-largest Indian state by population, comprising 23 districts. To the west, it shares an international border with the identically named Pakistani province of Punjab. Three of the five traditional Punjab rivers — the Sutlej, Beas. Forming part of the larger Punjab region of the Indian subcontinent, the state is bordered by the Indian states and union territories of Himachal Pradesh to the north and northeast, Haryana to the south and southeast, Rajasthan to the southwest, Jammu and Kashmir to the north. 7%) and Hindus (38. [pənˈdʒaːb]) is a state in northwestern India. The state covers an area of 50,362 square kilometres (19,445 square miles), which is 1. 5%) forming the dominant religious groups c524a75a1a
