Public health anchored by the National Health Insurance (NHI) system that was introduced in 1995 and provides nearly universal coverage, reaching an estimated 99. The concept of health takes into account physical, psychological, and social well-being, among other factors. 9% of Public health is "the science of preventing disease, prolonging life and promoting health through the organized efforts and informed choices of society, organizations, public and private, communities and individuals". Analyzing the determinants of health of a population and the threats it faces is the basis for public health. The public can be as small as a handful of people or as large as a village or an entire city; in the case of a pandemic it may encompass several continents 94d9c3a32a
