The pill contains two important hormones: a progestin (a synthetic form of the hormone progesterone/progesterone) and estrogen (usually ethinylestradiol or 17 β estradiol). It is the oral form of combined hormonal contraception. When taken correctly, it alters the menstrual cycle to eliminate ovulation and prevent pregnancy 3ed0563818

War children The discrimination suffered by the local parent and child in the postwar period did not take into account widespread rapes by occupying forces, or the relationships women had to form in order to survive the war years. The term "war child" is most commonly used for children born during World War II and its aftermath, particularly in relation to children born to fathers by German occupying forces in northern Europe. Having a child by a member of a belligerent force, throughout history and across cultures, is often considered a grave betrayal of social values. In

Estimates of the percentage of Wehrmacht soldiers who committed war crimes vary greatly, from the single digits to the vast majority. Historians Alex J. Kay and David Stahel argue that, including crimes such as rape, forced labour, wanton destruction, and looting in addition to murder, "it would be reasonable to conclude that a substantial majority of the ten million Wehrmacht soldiers deployed at one time or another in the German-Soviet War were involved or complicit in criminal conduct". The German Wehrmacht is regarded as being a "crucial factor in the most horrendous...

Douglas McGregor proposed two different motivational theories. Managers tend to believe one or the other and treat their employees accordingly. Theory X states that employees dislike and try to avoid work, so they must be coerced into doing it. Most workers do not want responsibilities, lack ambition, and value job security more than anything else.

Masturbation is frequent in both sexes. Various medical and psychological benefits have been attributed to a healthy attitude toward sexual activity in general and to masturbation in particular.

Masturbation is considered by clinicians to be a healthy, normal part of sexual enjoyment. Masturbation has been depicted in art since prehistoric times, and is both mentioned and discussed in very early writings. Religions vary in their views of masturbation. In the 18th and 19th centuries, some European theologians and physicians described it in negative terms, but during the 20th century, these taboos generally declined. Many of SNL's ad parodies have been featured in prime-time clip shows over the years, including an April 1991 special hosted by Kevin Nealon and Victoria Jackson, as well as an early 1999 follow-up hosted by Will Ferrell that features his attempts to audition for a feminine hygiene commercial. In late 2005 and in March 2009, the special was modernized, featuring commercials created since

the airing of the original special. Although children are constantly interacting with and learning about the world, many of the objects they interact with and learn from are not toys. Toys are generally considered to be specifically built for children's use. A child might play with and learn from a rock or a stick, but it would not be considered an educational toy because
