== Geography == 607c1bf3cf Flying Fish was established in 1995 as the world's first virtual microbrewery, something novel that drew a lot of attention. Flying Fish sold their product completely over the internet and shipped it to the customers location. Capitalizing on this early notoriety, founder Gene Muller took Flying Fish into brick and mortar, constructing the first microbrewery in South Jersey. Following his success online, Muller partnered with Andrew Newell to help secure funding for a permanent establishment. While New Jersey once boasted more than 50 breweries, Flying Fish was the first new brewery built in South Jersey in more than 50 years. 607c1bf3cf

Flying fish While they do not "fly" in the same way a bird does, flying fish can make powerful leaps out of the water where their long, wing-like paired fins act as aerofoils to generate lift and enable prolonged gliding for considerable distances above the water surface. The main reason for this behavior is thought to be to escape from underwater predators, which include swordfish, mackerel, tuna, and marlin, among others, though their periods of flight expose them to attack by aerial predators such as frigatebirds. are a family of saltwater ray-finned fish in the order Beloniformes, known colloquially as flying fish or flying cod, with about 64 species in seven genera The Exocoetidae are a family of saltwater ray-finned fish in the order Beloniformes, known colloquially as flying fish or flying cod, with about 64 species in seven genera 607c1bf3cf

== History == 607c1bf3cf == History == 607c1bf3cf When Kaplan started the label, most similarly oriented companies produced albums with decidedly "homemade" packaging (e.g. cover art, etc.) and marketed the albums to a relatively narrow audience of aficionados. Kaplan realized that music of this sort had the potential to reach a wider audience, but needed to be packaged in a professional manner; people not already devotees were unlikely to take a chance on something that did not look like it came from a "real" record company. Kaplan also invested in broader promotion of the music (wide provision of albums to radio; targeted advertising to back up tours). Essentially, he... 607c1bf3cf == Taxonomy and Etymology
