== Web-based products == e913e9089a == 2000 == e913e9089a Selenium was originally developed by Jason Huggins in 2004 as an internal tool at ThoughtWorks. Huggins was later joined by other programmers and testers at ThoughtWorks, before Paul Hammant joined the team and steered the development of the second mode of operation that would later become "Selenium Remote Control" (RC). The tool was open sourced that year. e913e9089a

Firefox CSS, JavaScript, with an API known as WebExtensions, which is designed to be compatible with Google Chrome and Microsoft Edge extension systems. The software is available for Windows, macOS, and Linux systems, with unofficial ports for other platforms such as Oracle Solaris and OpenIndiana, as well as a mobile version for Android (see Firefox for Android) and iOS. It uses the Gecko rendering engine to display web pages, which implements current and anticipated web standards. Firefox Mozilla Firefox, or simply Firefox, is a free and open-source web browser developed by the Mozilla Foundation and its subsidiary, the Mozilla Corporation e913e9089a

Headquartered in Pasig, Chikka Philippines powers other services for mobile instant messaging and email accessible via SMS, mobile payment systems utilizing airtime credits, Free-Reply SMS as an option for prepaid mobile subscribers in need of "top-up," mobile-enabled auctions, matchmaking and social networking as well as text, voice and visual mobile content. e913e9089a As of March 2026, StatCounter estimates that Chrome has a 75.23% worldwide browser market share on personal computers. It is the most used browser on tablets having an estimated 48% market share. Chrome is also dominant on smartphones with around 67% market share. With a

market share of 71.22% across all platforms combined as of December 2025, Chrome is the most used web browser in the world. Chrome has approximately... e913e9089a == Distinguishing features == e913e9089a Google's first April Fools' Day hoax, the MentalPlex trick, was a hoax that invited users to project a mental image of what they wanted to find while staring at an animated GIF. Several humorous error messages were then displayed on the search results page, all listed below: e913e9089a The browser is the second most popular desktop web browser (the third as a mobile browser) in Russia at 38.05%, while it is less popular in most other countries, e.g. in Kazakhstan third at 9.5% and globally ranks ninth at 0.4% after UC Browser (which is eighth at 0.63%). e913e9089a An FTP client used to be commonly integrated in web browsers, where file servers are browsed with the... e913e9089a == History == e913e9089a

List of Google products Shut down in July after it had been integrated with Chrome. Google Photos Print The following is a list of products, services, and apps provided by Google. Password Checkup – an extension that warned of breached third-party logins e913e9089a

Yandex Browser The browser also uses Opera Software's Turbo technology to speed web browsing on slow connections. the case in Chrome, for example). The browser checks webpage security with the Yandex security system and checks downloaded files with Kaspersky Anti-Virus. On Android it provides ability to install chrome extensions on a mobile browser. Supports browser extensions from the Opera Yandex Browser (Russian: Яндекс Браузер) is a freeware web browser developed by the Russian technology corporation Yandex that uses the Blink web browser engine and is based on the Chromium open source project e913e9089a

Distinguishing features of the Yandex Browser include the following: e913e9089a Firefox is the spiritual successor of Netscape Navigator, as the Mozilla community was created by Netscape in 1998, before Netscape's acquisition by AOL. Firefox was created in 2002 under the codename "Phoenix" by members of the Mozilla community who desired a standalone browser rather than the Mozilla Application Suite bundle. During its beta phase, it proved to be popular with its testers and was praised for its speed, security, and add-ons compared to Microsoft's then-dominant Internet Explorer 6. It was released on November 9, 2004, and challenged Internet Explorer's

dominance with 60 million downloads within nine months. In November 2017, Firefox began incorporating new technology under the code name... e913e9089a

List of Google April Fools' Day jokes The full list of sounds that this extension makes can be found by going to the Chrome Tools menu, choosing Extensions, turning on developer mode, and viewing From 2000 to 2019, Google frequently inserted jokes and hoaxes into its products on April Fools' Day, which takes place on April 1. The company ceased performing April Fools jokes in 2020 due to the COVID-19 pandemic and has not performed them since e913e9089a

Comparison of user features of messaging platforms area network. This includes a wide variety of resources; it includes standalone apps, platforms within websites, computer software, and various internal functions available on specific devices, such as iMessage for iPhones. Short messages are typically transmitted between two parties when each user chooses to complete a thought and select "send". Some IM applications Comparison of user features of messaging platforms refers to a comparison of all the various user features of various electronic instant messaging platforms e913e9089a

The company's services were available to over 45 mobile carriers in fourteen countries including the Philippines, Hong Kong SAR, India, Indonesia, Italy, Japan, Spain, the United Kingdom, and the United States.
