Horses are non-ruminant herbivores of a type known as a "hindgut fermenter." Horses have only one stomach, as do humans. However, unlike humans, they also need to digest plant fiber (largely cellulose) that comes from grass or hay. Ruminants like cattle are foregut fermenters, and digest fiber in plant matter by use of a multi-chambered stomach, whereas horses use microbial fermentation in the hindgut to break down the cellulose.

FITs typically include three key provisions:

In practical terms, horses prefer to eat small amounts of food steadily throughout the day, as they do in nature when grazing on pasture lands. Although this is not always possible with modern stabling practices and human schedules that favor feeding horses twice a day, it is important to remember the underlying biology of the animal when determining what to feed, how often, and in what quantities.

== History ==

The digestive system of the horse is somewhat delicate. Horses are unable to regurgitate food, except from the esophagus. Thus, if they overeat or eat something poisonous, vomiting is not an option. They...

Feed-in tariff FITs often include a "digression": a gradual decrease of the price or tariff in order to follow and encourage technological cost reductions. This means promising renewable energy producers an above-market price and providing price certainty and long-term contracts that help finance renewable energy investments. A feed-in tariff was briefly adopted in 2011, but ended a month later A feed-in tariff (FIT, FiT, standard offer contract, advanced renewable tariff, or renewable energy payments) is a policy mechanism designed to accelerate investment in renewable energy technologies by offering long-term contracts to renewable energy producers. For example, technologies such as wind power and solar PV are awarded a higher price per kWh than tidal power. the old scheme. Typically, FITs award different prices to different sources of renewable energy in order to encourage the development of one technology over another. The old and new subsidy scheme was funded from the general budget 9dc39e9cdd
