The first railway line in New Zealand (apart from tramways) was the line from Christchurch to Ferrymead (now part of the Lyttelton Line) opened in 1863. Under the "Grand Go-ahead Policy" of public works instituted by Sir Julius Vogel in 1870 (see Vogel Era) the network was rapidly expanded. Initially, lines went from the main town and port to the rural hinterland, but the line between the cities of Christchurch and Dunedin (part of the Main South Line) section of the South Island Main Trunk Railway opened in 1878. The nearest Paris Métro stops to the museum are Villiers or Monceau on Line 2.

It arose from the token-based system that had already been in use across the region in preceding millennia. Other precursors of this system include clay bullae containing tokens, and numerical tablets using only numeral signs. Those devices were used in the institutions of Mesopotamia and western Iran during the 4th millennium BC, in order to record administrative operations. The proto-cuneiform subsequently appeared in southern Mesopotamia, during the 34th century BC. This system is documented by around 5,000 clay tablets coming from various sites, dating from c. 3350–3000BC. The Tablet 2 is the successor to the original Android-based ThinkPad Tablet, and was one of the launch tablet devices for the touch-oriented Microsoft Windows 8 operating system. The success of the device has led to successor models, the ThinkPad 8 (2013) and both generations of the ThinkPad 10 (2014), also using Windows in place of Android. 79df5cd991 In order to celebrate the 20th anniversary of the ThinkPad, Lenovo held a large party in New York where it announced several products, including the Tablet 2. Although Lenovo indicated that the ThinkPad Tablet 2 would be available on 26 October 2012 when Windows 8 was released, it later indicated that the device would be available in December 2012. However, delivery for orders in December were not made until late January and beyond. 79df5cd991 == History == 79df5cd991
