

Google Play Store App Google Play

Google Store Google Store is a hardware retail store operated by Google that sells Google Pixel devices, Google Nest products, Chromecast dongles, Fitbit devices like the Fitbit Air, and accessories such as earbuds, phone cases, chargers, and keyboards. It was introduced on March 11, 2015, and replaced the Devices section of Google Play as Google's hardware retailer. Google Store sells products made by Google or made in collaboration with that company. It also sold Google Nexus, Google Daydream, Google Stadia and Google Cardboard devices until their discontinuations

Google Play Services Google Play Services is used by almost all Google apps that have system-level powers. It consists of background services and libraries for use by mobile apps running on the device. with Google's Android specifications. When it was introduced in 2012, it provided access to the Google+ APIs and OAuth 2. Without Google Play Services Google Play Services is a proprietary software package produced by Google for installation on Android devices. It expanded to cover a variety of Google services, allowing applications to communicate with the services through common means

List of Google Play edition devices Unlike the standard versions of Android on these devices, which have received "skins" from the original equipment manufacturer, such as Samsung One UI or HTC Sense, they ran a "stock" version of Android, without any manufacturer or wireless carrier modifications, making them essentially like Google Nexus and Google Pixel devices in terms of software but they did not carry the Google Nexus branding, nor did their hardware differ from that of the original devices upon which the Play editions are based. Because of this, the software included slight, under-the-hood changes to function on the original manufacturer's hardware. have been offered exclusively through Google's Play Store. Updates for these devices were delivered by Google (bypassing carriers), but were supplied The Google Play edition devices (GPE) was a series of consumer mobile devices sanctioned by Google that run the Android operating system

Google Play Google Play, also known as the Google Play Store or Play Store, and formerly known as the Android Market, is a digital distribution service operated and Google Play, also known as the Google Play Store or Play Store, and formerly known as the Android Market, is a digital distribution service operated and developed by Google. It serves as the official app store for certified

devices running on the Android operating system and its derivatives, as well as ChromeOS, allowing users to browse and download applications developed with the Android software development kit and published through Google. Google Play has also served as a digital media store, with it offering various media for purchase (as well as certain things available free) such as books, movies, musical singles, television programs, and video games 27ecc07b9c

Google has experimented with physical locations as well. In October 2016, it opened a pop-up shop in New York City to display its then-recently announced hardware products, and the following month it opened "Google Shops", store-within-a-store locations at select Best Buy stores in Canada. 27ecc07b9c Google Play Games on Android, launched in 2013, features mobile achievements, leaderboards, gamer profiles, saved games and achievements which give XP to level up. The instant play feature is retired since December of 2025. The maximum level a user can go is currently 99, which used to be 50. Google Play Games for PC Beta launched in 2021 with a set of Android games optimized for Windows and Chromebooks. The user gamer profile syncs across Google Play Games on PCs and mobile devices. A Google Account is required to use most of the features Google Play Games has. 27ecc07b9c Google Play Books was launched in December 2010, with a reseller program letting independent booksellers sell Google ebooks on their websites for a cut of sales. It also launched an affiliate program in June 2011, allowing website owners to earn a commission by referring sales to the then-named Google eBookstore. However, the reseller program ended in April 2012, with Google stating that it had "not gained the traction that we hoped it would" and "not met the needs of many... 27ecc07b9c Google Play Games has received updates over the years since its launch, including a screen-recording feature, custom gamer IDs, built-in games, and an arcade for... 27ecc07b9c The purchased or rented video titles can be watched by a signed-in user on Android TV devices, Google TV devices, the Google TV mobile app (Android and iOS), and YouTube. The Google TV mobile app can download video for offline watching. The search, discover and watchlist options are also available on the Google Search website, the Google TV app on mobile devices, TVs with Google Assistant, and Google TV devices. 27ecc07b9c == Features == 27ecc07b9c

Google Play Games emulator service was introduced at the Google I/O 2013 Developer Conference, and the standalone Google Play Games mobile app was launched for Android on July Google Play Games is an online video gaming service by Google for Windows 10 and 11, Chromebooks, and Android devices 27ecc07b9c

Although the updates were not supplied directly by Google, as is the case with the products from the Nexus line, these devices receive Android updates at nearly the same time as Nexus products... 27ecc07b9c

Google Play Music store section of Google Play. The service was announced on May 10, 2011; after a six-month, invitation-only beta period, it was publicly launched on November 16, 2011, and shut down in December 2020 after being replaced by YouTube Music.

Google Play Music offered all Google Play Music was a music and podcast streaming service and an online music locker operated by Google as part of its Google Play line of services. Google Play Music mobile apps also supported offline playback of tracks stored on the device 27ecc07b9c

Google Play Books Users can purchase and download ebooks and audiobooks from Google Play, which offers over five million titles, with Google claiming it to be the "largest ebooks collection in the world". Books can be read on a dedicated Books section on the Google Play website, through the use of a mobile app available for Android and iOS, through the use of select e-readers that offer support for Adobe Digital Editions, through a web browser and reading via Google Home. Users may also upload up to 2,000 ebooks in the PDF or EPUB file formats. can be read on a dedicated Books section on the Google Play website, through the use of a mobile app available for Android and iOS, through the use of Google Play Books, formerly Google eBooks, is an ebook digital distribution service operated by Google, part of its Google Play product line. Google Play Books is available in 75 countries 27ecc07b9c

== History == 27ecc07b9c Google Play Game Services... 27ecc07b9c The Google Play Games emulator service was introduced at the Google I/O 2013 Developer Conference, and the standalone Google Play Games mobile app was launched for Android on July 24, 2013. Andrew Webster of The Verge compared Google Play Games to Game Center, a similar gaming network for users of Apple Inc.'s own iOS operating system. 27ecc07b9c devices: 27ecc07b9c Applications are available through Google Play either for free... 27ecc07b9c == Services == 27ecc07b9c == History == 27ecc07b9c Content that has been purchased on Google TV and Google Play Books can be accessed on a web browser (such as, for example, Google Chrome) and through certain Android and iOS apps. An individual's Google Account can feature a diverse collection of materials to be heard, read, watched, or otherwise interacted with. The nature of the various things offered through Google Play's services have changed over time given the particular history of the Android operating system. 27ecc07b9c The package's services include location tracking and geofencing, single sign-on account services, user health and fitness tracking, payment processing, integrated advertising, and security scanning. Many apps on Android devices depend on the use of Google Play Services, and the package requires the user to use a Google Account and agree to Google's terms of service. Distributing Google Play Services on an Android device requires a license from Google, which contractually prohibits device producers from producing Android devices that are incompatible with Google's Android specifications. 27ecc07b9c

List of most-downloaded Google Play applications For context, in July 2017 319 apps had been downloaded at least 100 million times, and 4,098 apps had been downloaded at least ten million times. The 500-million download threshold for free applications has

been established, as of 2024, to maintain the list's manageability and torch on the most widely distributed apps. The table below shows the number of Google Play apps in each category. This list of most-downloaded Google Play Store applications includes most of the free apps that have been downloaded at least 500 million times. As of This list of most-downloaded Google Play Store applications includes most of the free apps that have been downloaded at least 500 million times. As of 2024, thousands of Android applications have surpassed the one-million download milestone, with a significant subset reaching even higher thresholds. It's worth noting that many of the applications in this list are distributed pre-installed on top-selling Android devices and may be considered bloatware by some people because users did not actively choose to download them 27ecc07b9c

Google Play Services is used by almost all Google apps that have system-level powers. Without Google Play Services, these apps may not work properly. 27ecc07b9c For publishers, Newsstand offered a variety of tools for customization and optimization of their content, and the option to include ads through the use of DoubleClick for Publishers. Publishers could restrict geographic access to their content, and employ Google Analytics for aggregated readership data. Publishers could also offer discounts for Google Play subscriptions if the user was already a subscriber on another platform (such... 27ecc07b9c Newsstand allowed users to subscribe to magazines (available in select countries) and topical news feeds, receiving new issues and updates automatically. Content was offered for reading on a dedicated Newsstand section of the Google Play website, or through the mobile apps for Android and iOS. Offline download and reading was supported in the mobile apps. 27ecc07b9c These lists are of the apps in Google Play that are free, and have at least 500 million downloads on unique Android 27ecc07b9c

Google TV (service) & TV would no longer be supported on the Google Play app and Google Play would continue to be store for apps, games, and books. The service expanded to Google TV, formerly known as Google Play Movies & TV, is a digital distribution service for movies and television series developed by Google. In September 2020, it was relaunched as Google TV. Launched in 2011 as part of the Google Play product line, the service offers search and discovery of video titles across multiple streaming services, including rental or purchase options, alongside watchlist features for accessing titles from eligible devices and platforms 27ecc07b9c

Users with standard accounts could store up to 50,000 songs from their personal libraries at no cost. A paid All Access subscription, introduced in 2013, allowed users to on-demand stream any song in the Google Play Music catalog. Podcasts were later included in the catalog in 2016. Also, users could purchase additional tracks from the music store section of Google Play. Google Play Music mobile apps also supported offline playback of tracks stored on the device. 27ecc07b9c

Google Play Newsstand from the Google Play website and the Play Store app. In January 2020, magazines were no longer available

on Google News, ending all traces of Play Newsstand Google Play Newsstand was a news aggregator and digital newsstand service owned and operated by Google between 2013 and 2018. The service was launched in November 2013 through the merger of Google Play Magazines and Google Currents. On May 8, 2018, at Google I/O, Google announced that Google Play Newsstand was, in turn, amalgamated into Google News, after which it ceased to exist as a separate service 27ecc07b9c

These devices are carrier unlocked and GSM-based, and have been offered exclusively through Google's Play Store. Updates for these devices were delivered by Google (bypassing carriers), but were supplied by the original device manufacturer. 27ecc07b9c
