

Over The Counter Remedies For Cold

There are a number of different cough and cold medications, which may be used for various coughing symptoms. The commercially available products may include various combinations of any one or more of the following types of substances: e451f86271 Gluconic acid is found naturally, and is industrially made by the fermentation of glucose, typically by *Aspergillus niger*, but also by other fungi, e.g. *Penicillium*, or by bacteria, e.g. *Acetobacter*, *Pseudomonas* and *Gluconobacter*. In its pure form, it is a white to off-white powder. It can also be made by electrolytic oxidation, although this is a more expensive process. The advantages are a lower microbiological profile, and a more complete reaction, yielding a product with a longer shelf life. e451f86271 == Zinc gluconate and the common cold == e451f86271

Vicks For much of its history, Vicks products were manufactured by the family-owned company Richardson-Vicks, Inc. , based in Greensboro, North Carolina. (known in Latin America as Vick) is an American brand of over-the-counter medications owned by the American companies Procter & Gamble and Kaz Incorporated Vicks (known in Latin America as Vick) is an American brand of over-the-counter medications owned by the American companies Procter & Gamble and Kaz Incorporated. Richardson-Vicks, Inc. Vicks also produces the Formula 44 brand of cough medicines, cough drops, Vicks VapoRub, and a number of inhaled breathing treatments. S. , was eventually sold to Procter & Gamble in 1985. Vicks manufactures NyQuil and its sister medication, DayQuil as well as other medications in the "Quil" line. Procter & Gamble divested the Vicks VapoSteam U. liquid inhalant business and sold it to Helen of Troy in 2015 e451f86271

Cold medicine It also includes drugs which are marketed as cough suppressants or antitussives, but their effectiveness in reducing cough symptoms is unclear or minimal. The term encompasses a broad array of drugs, including analgesics, antihistamines and decongestants, among many others. Cold medicines are a group of medications taken individually or in combination as a treatment for the symptoms of the common cold and similar conditions Cold medicines are a group of medications taken individually or in combination as a treatment for the symptoms of the common cold and similar conditions of the upper respiratory tract e451f86271

Zinc gluconate Archived Zinc gluconate is the zinc salt of gluconic acid. Retrieved 13 January 2022. gov. "FDA Advises Consumers Not to Use Certain Zicam Cold Remedies". www. fda. Zinc gluconate is a popular form for the delivery of zinc as a dietary supplement providing 14. Archived from the original on 17 June 2009. It is an ionic compound consisting of two

anions of gluconate for each zinc(II) cation. 35% elemental zinc by weight e451f86271

Merck's over-the-counter products includes cough and cold remedies, diet supplements, everyday health supplements, and women's and children's health products. Europe accounts for around 65% of the global sales, 32% is made in Emerging Markets and 3% is achieved elsewhere. e451f86271

Common cold People usually recover in seven to ten days, but some symptoms may last up to three weeks. supporting effectiveness and the potential for harm. Occasionally, those with other health problems may develop pneumonia. Signs and symptoms may appear in as little as two days after exposure to the virus. These may include coughing, sore throat, runny nose, sneezing, headache, fatigue, and fever. When general symptoms are systemic and the disease is severe, the term "flu-like" or "influenza-like illness" can be used instead. In 2009, Canada restricted the use of over-the-counter cough and cold medication in children six years The common cold, or simply a cold, is a viral infectious disease of the upper respiratory tract that primarily affects the respiratory mucosa of the nose, throat, sinuses, and larynx e451f86271

Patent medicine The ingredients of patent A patent medicine (sometimes called a proprietary medicine) is a non-prescription medicine or medicinal preparation that is typically protected and advertised by a trademark and trade name, and - often falsely - claimed to be effective against minor disorders and symptoms, as opposed to a prescription drug that could be obtained only through a pharmacist, usually with a doctor's prescription, and whose composition was openly disclosed. Many over-the-counter medicines were once obtainable only by prescription and thus are not patent medicines. openly disclosed. Many over-the-counter medicines were once obtainable only by prescription and thus are not patent medicines e451f86271

While they have been used by 10% of American children in any given week, they are not recommended in Canada or the United States in children six years or younger because of lack of evidence showing effect and concerns of harm. e451f86271

Merck Consumer Health and cold remedies, diet supplements, everyday health supplements, and women's and children's health products. It offers a wide range of over-the-counter products to consumers in more than 100 countries and belongs to the global top 20 of the most successful companies in the OTC industry. Europe accounts for around 65% of the global Merck Consumer Health is a fully integrated division of the German chemical and pharmaceutical company Merck KGaA e451f86271

In April 2018, P&G agreed to buy Merck Consumer Health for \$4.2 billion. e451f86271 The term over-the-counter (OTC) refers to a medication that can be purchased without a medical prescription. In contrast, prescription drugs require a prescription from a doctor or other health care professional and should only be used by the prescribed individual. Some drugs may be legally classified as over-the-counter (i.e. no prescription is required), but may only be dispensed by a pharmacist after an assessment of the patient's needs or the provision of patient education. Regulations detailing the establishments where drugs may be sold, who is authorized to dispense them, and whether a prescription is required vary considerably from country to... e451f86271 In German-speaking countries (except Switzerland), the brand Vicks is sold as Wick to avoid brand errors related to pronunciation. This was done to avoid obscene and potentially offensive connotation, as v pronounced natively in German is /f/ and it could be mispronounced as Fick(s) (meaning "Fuck(s)"), and Vicks is a homophone for "wicks", a conjugation of the German word "wachsen", meaning male masturbation. e451f86271

Over-the-counter drug OTC drugs are usually regulated according to their active pharmaceutical ingredient (API) and strengths of final products. Over-the-counter (OTC) drugs are medicines sold directly to a consumer without a requirement for a prescription from a healthcare professional, as opposed Over-the-counter (OTC) drugs are medicines sold directly to a consumer without a requirement for a prescription from a healthcare professional, as opposed to prescription drugs, which may be supplied only to consumers possessing a valid prescription. In many countries, OTC drugs are selected by a regulatory agency to ensure that they contain ingredients that are safe and effective when used without a physician's care e451f86271

== History == e451f86271 == Consumer Health Products and Brands == e451f86271 Zicam was invented and developed by Charles B. Hensley and Robert Steven Davidson in the mid 1990s, working on the ICAM-1 synthesis success of the Hafdua Laboratory in Haifa, Israel, under the direction of Mich Segal and Avram Satz, and is produced, marketed and sold by Zicam, LLC, a wholly owned subsidiary of Matrixx Initiatives, Inc., an American company. In 2009, the U.S. Food and Drug Administration (FDA) and Health Canada advised consumers to avoid intranasal versions of Zicam Cold Remedy because of a risk of damage to the sense of smell, leading the manufacturer to withdraw these versions from the U.S. market. However, in recent years, they have returned to market with both nasal swabs and also dissolving/chewable tablets and nasal spray and oral mist forms, some with zinc, some without. e451f86271 == History == e451f86271 Originally called LEM-SIP, the product was first introduced in 1969. In the 1970s, Reckitt rebranded the product to Lemsip and included the 'sword in a glass' logo on packaging. e451f86271 Consumer health has five subsidiaries worldwide: Seven Seas Ltd., Lamberts, Merck Médication Familiale, Merck Selbstmedikation, and Merck Consumer Health Care Shanghai Trading Company. In addition to these companies, the Consumer Health Care division operates businesses in Europe, Latin America, Asia and Africa. e451f86271

List of paracetamol brand names George (20 December 2020). Common brand names include Tylenol, Excedrin, Calpol, and

Panadol. Crisostomo, The medication paracetamol (INN) (or), also known as acetaminophen (USAN) (), is sold around the world under a number of different brand names. "Personal care: over the counter: Less illness knocks cold & flu lines". The Grocer. Retrieved 26 March 2021 e451f86271

Well over 200 virus strains are implicated in causing the common cold, with enteroviruses (especially rhinoviruses), coronaviruses, and adenoviruses being the most common. They spread through the air or indirectly through contact with objects in the environment, followed by transfer to the mouth or nose. Risk factors include going to child care facilities, not sleeping well, and psychological stress. The symptoms are mostly due to the body's immune response to the infection rather than to tissue destruction by the viruses themselves. The symptoms... e451f86271 The term is sometimes still used to describe quack remedies of unproven effectiveness and questionable safety sold especially by peddlers in past centuries, who often also called them elixirs, tonics, or liniments. Current examples of quack... e451f86271 Zinc gluconate has been used in lozenges for treating the common cold. Controlled trials with lozenges which include zinc acetate have found it has the greatest effect on the duration of colds. Zinc has also been administered nasally for treating the common cold, but has been reported to cause anosmia in some cases. e451f86271 Currently there are nine global brands, available in more than 100 countries including several countries in Europe, South America, Asia as well as Africa. Several subbrands and local brands like Multibionta... e451f86271 In 2020, the brand... e451f86271 The ingredients of patent medicines are incompletely disclosed. Antiseptics, analgesics, some sedatives, laxatives, antacids, cold and cough medicines, and various skin preparations are included in the group. The safety and effectiveness of patent medicines and their sale is controlled and regulated by the Food and Drug Administration (FDA) in the United States and corresponding authorities in other countries. e451f86271

Zicam It is labelled as an "unapproved homeopathic" product and as such has no evidence of effectiveness. The Zicam name is derived from a portmanteau of the words "zinc" and "ICAM-1" (the receptor to which a rhinovirus binds in order to infect cells). The Zicam name is derived from a portmanteau of the words "zinc"; Zicam is a branded series of products marketed for cold and allergy relief whose original formulations included the element zinc. marketed for cold and allergy relief whose original formulations included the element zinc e451f86271
