New World Order conspiracy theory The common theme in conspiracy theories about a New World Order is that a secretive power elite with a globalist agenda is conspiring to eventually rule the world through an authoritarian one-world government—which will replace sovereign nation-states—and an all-encompassing propaganda whose ideology hails the establishment of the New World Order as the culmination of history's progress. Many influential historical and contemporary figures have therefore been alleged to be part of a cabal that operates through numerous front organizations to orchestrate significant political, social and economic events, including taking advantage of crises or even causing them in order to push through controversial policies at both national and international levels, as steps in an ongoing plot to achieve world domination. Conspiracy theorists fear the outcome will either be the emergence of a Brave New World-like dystopia—a "Brave New World Order"—or The New World Order (NWO) is a term often used in conspiracy theories which speculate about a secretly emerging totalitarian world government. the world around them 52de8c51ff
