Not an admin, but that is one of the most blatant threats of legal action I've seen on this site. I'd recommend an immediate ban block. Ironholds (talk) 12:04, 24 March 2009 (UTC) 8b2df84547

I have blocked him indefinitely for that legal threat. If any unblocking is done (and as usual, I don't have any problems with a reasoned unblocking), please reinstate the previous block (or unblock for both at once of course). If I'm not around while unblocking is suggested or discussed, feel free to proceed without me. Fram (talk) 12:17, 24 March 2009 (UTC) 8b2df84547

agreed rdunnPLIB 12:09, 24 March 2009 (UTC) 8b2df84547 How can I find out what a packet of unknown drug is made of? I'm not sure it's one drug or several, in powder form. It is extremely unlikely to be an illegal drug. I'm more concerned it is a normal prescription drug. Is the Unknown Substance test here [1] the kind of test I should be looking for? Would a doctor or hospital have access to such a service? How would I find a cheap one? How much would it cost?
