For example, "blue" and "green" might be distinguished, but a single term might be used for both if the color is dark. Furthermore, green might be associated with yellow, and blue with either black or gray. 99c516d442 Writing in ancient Egypt—both hieroglyphic and hieratic—first appeared in the late 4th millennium BC during the late phase of predynastic Egypt. By the Old Kingdom (26th century BC to 22nd century BC), literary works included funerary texts, epistles and letters, hymns and poems, and commemorative autobiographical texts recounting the careers of prominent administrative officials. It was not until the early Middle Kingdom (21st century BC to 17th century BC) that a narrative Egyptian literature was created. This was a "media revolution" which, according to Richard B. Parkinson, was the result of the rise of an intellectual class of scribes, new cultural sensibilities about individuality, unprecedented levels of literacy, and mainstream access to written materials. The creation of literature was thus an elite exercise, monopolized by a scribal class attached to government offices and the royal court of the ruling... 99c516d442 Eastmain (talk · contribs) is following my trail of tagging images without a fair-use rationale and inserting what I believe to be wholly insufficient rationales, then deleting the {{nrd}} template.
