Chemical weapons were first used on a large scale by most major powers in World War I, employing the gases mustard, phosgene, and chlorine, and others, causing lung scarring, blindness, and death. During World War II, Nazi Germany used a commercial hydrogen cyanide blood agent named Zyklon B to commit industrialised genocide against Jews and other populations in gas chambers. The Holocaust resulted in the largest death toll to chemical weapons in history. The Empire of Japan also used chemical warfare in China during the Second Sino-Japanese War, including mustard gas and lewisite. 6848640968 Pollard later created a band called Boston Spaceships, which appears as a song on this collection. 6848640968 The active ingredient in pepper spray is capsaicin, which is derived from the fruit of plants in the genus Capsicum, including chilis in the form of oleoresin capsicum (OC). Extraction of OC from peppers requires capsicum to be finely ground, from which capsaicin is then extracted using an organic solvent such as ethanol. The

solvent is then evaporated, and the remaining waxlike resin is the oleoresin capsaicin. 6848640968 Nazi Germany discovered nerve agents during the war, but did not use them for fear of Allied retaliation. History of chemical warfare Chemical weapons have been a part of warfare in most societies for centuries. However, their usage has been extremely controversial since the 20th century. chemical warfare in China during the Second Sino-Japanese War, including mustard gas and lewisite. Nazi Germany discovered nerve agents during the war, but The history of chemical warfare dates from antiquity 6848640968

Efforts by Iraq to acquire chemical weapons date back to the early 1960s and were motivated by a desire to greatly strengthen the Iraqi military, especially after the 1973 Arab-Israeli War. However, it was not until Saddam took power that the program experienced significant and steady progress. Though lacking stockpiles at the time of the Iraqi invasion of Iran in 1980, the country rapidly engaged in intensive research to produce and store chemical weapons, with real-time battlefield deployments serving as tests for the prowess of Iraqi forces in waging chemical warfare. 6848640968 In 2002, a revival series was produced that lasted for ten episodes and aired on Nickelodeon from July 29 to October 7, 2002.
