Stretches are usually employed to weaken an opponent or to force them to submit, either vocally or by tapping out: slapping the mat, floor, or opponent with a free hand three times. Many of these holds, when applied vigorously, stretch the opponent's muscles or twist their joints uncomfortably, hence the name. Chokes, although not in general stress positions like the other stretches, are usually grouped with stretches as they serve the same tactical purposes. In public performance, for safety's sake, stretches are usually not performed to the point where the... f3elf6feed He died in Plymouth, Devon on 14 July 1947. f3elf6feed
