Nursing in the United States Nursing in the United States is a professional health care occupation. It is the largest such occupation, employing millions of certified professionals Nursing in the United States is a professional health care occupation. As of 2023, 3,175,390 registered nurses were employed, paid a median income of \$86,070. It is the largest such occupation, employing millions of certified professionals 994413f74f

The role that nurses have played in the development of Canada has been recognized through the designation of seven National Historic Sites of Canada related to nursing. Five nurses' residences (the Ann Baillie Building, Begbie Hall, the Hersey Pavilion, the Pavillon Mailloux and the St. Boniface Hospital Nurses' Residence) were designated in commemoration of the growing professionalism of nursing and of the expanded role of nurses in health care over the course of the 20th century. The La Corne Nursing Station and the Wilberforce Red Cross Outpost were designated, in part, in honour of the role played by nurses in delivering health care to isolated areas. 994413f74f Nurses are not doctors' assistants and practice nursing in a wide variety of specialties and departments. They may act in that capacity, such as in the emergency department or in trauma care, but more

often independently care for their patients or assist other nurses. RNs treat patients, record their medical history, provide emotional support, and provide follow-up care. Nurses also help doctors perform diagnostic tests. 994413f74f Nurses in every setting demonstrate their commitment to continually improving their nursing practice by annually engaging in a written reflection, an analysis of the year, and 2 learning goals. Every nurse registered in the General or Extended class is required, under the Registered Health Professions Act, 1991, to participate in the Quality... 994413f74f == History == 994413f74f
