A healthy diet may contain fruits, vegetables, and whole grains, and may include little to no ultra-processed foods or sweetened beverages. The requirements for a healthy diet can be met from a variety of plant-based and animal-based foods, although additional sources of vitamin B12 are needed for those following a vegan diet. Various nutrition guides are published by medical and governmental institutions to educate

individuals on what they should be eating to be healthy. Not only advertising may drive preferences towards unhealthy foods. To reverse this trend, consumers should be informed, motivated and empowered to choose healthy diets. Nutrition facts labels are also mandatory in some countries to allow consumers to choose between foods based on the components relevant to health. The lack of a healthy diet contributes massively to the global disease burden, imposing immense health, economic and social costs. 7e4337c3ec

Soft drink Soft drinks are called "soft" in contrast with "hard" alcoholic drinks and non-alcoholic drinks. Examples of soft drinks include lemon-lime drinks, orange soda, cola, grape soda, cream soda, ginger ale and root beer. Flavors can be natural, artificial or a mixture of the two. The sweetener may be a sugar, high-fructose corn syrup, fruit juice, a sugar substitute (in the case of diet sodas), or some combination of these. Soft drinks may also contain caffeine, colorings, preservatives and other ingredients. Small amounts of alcohol may be present in a soft drink, but the alcohol content must be less than 0.5% of the total volume of the drink (ABV) in many countries and localities if the drink is to not be considered alcoholic. Using a drinking straw is often advised by dentists as the drink does not come into as much contact with teeth. A soft drink (see § Terminology for other names) is a class of beverage containing no alcohol, usually (but not necessarily) carbonated, and typically including added sweetener 7e4337c3ec

The brand originally had a strong reputation as a healthy product for children, stemming from its distribution to children as a vitamin C supplement during World War II by the British government.

Beecham, a company that has been part of GSK since 2000, bought the brand in 1955 and developed many soft drink versions. A series of scandals in the 2000s, concerning vitamin C levels, sugar levels, and the amounts of actual fruit in some of the brands, damaged its reputation as a healthy product, and by 2013, the brand was widely regarded as a soft drink. 7e4337c3ec == Etymology == 7e4337c3ec
