The emergency department now treats 28,065 persons each year, while the hospital also houses the major transplantation service for Ontario, performing heart, lung, kidney, liver, pancreas, and small intestine, amongst others, for patients referred from all over Canada. The hospital is the largest organ transplant center in North America, performing 639 transplants in 2017. The hospital is also renowned for cardiac and thoracic surgery. The world's first single and double lung transplants were performed at TGH in 1983 and 1986 and the world's first valve-sparing aortic root replacement... 6dbacb32b8 Historically, "Old Toronto" referred to Toronto's boundaries before the Great Toronto Fire of 1904, when most urban development was to the east of Yonge Street. Since the 1998 amalgamation, the 1967–1998 city proper is referred to as "Old Toronto" or the "former city of Toronto". It is sometimes less accurately referred to as "downtown" or "the core" as Downtown Toronto... 6dbacb32b8 Princess Margaret Hospital, Christchurch 6dbacb32b8 The hospital specializes in the treatment of cancer, and offers the majority of its services to residents of the Greater Toronto Area. The hospital offers surgical oncology, medical oncology, hematology including bone marrow transplantation, radiation oncology, psychosocial oncology, medical imaging, and radiation therapy. 6dbacb32b8 Princess Margaret Hospital (Roseau), Roseau, Dominica 6dbacb32b8

Toronto General Hospital and east of Princess Margaret Cancer Centre and Mount Sinai Hospital. The hospital serves as a teaching hospital for the University of Toronto Faculty of Medicine. It is located in the Discovery District of Downtown Toronto along University Avenue's Hospital Row; it is directly north of The Hospital for Sick Children, across Gerrard Street West, and east of Princess Margaret Cancer Centre and Mount Sinai Hospital. The

hospital serves as a teaching hospital for the University of Toronto Faculty of Medicine. The Toronto General Hospital (TGH) is a major teaching hospital in Toronto, Ontario, Canada, and the flagship campus of University Health Network (UHN). In 2019, the hospital was ranked first for research in Canada by Research Infosource for the ninth consecutive year.

University of Toronto Mount Sinai is linked by bridges and tunnels to three adjacent hospitals of the University Health Network (Toronto General Hospital, Toronto Rehabilitation Institute, and Princess Margaret Cancer Centre). During the 2005 annual charity, the hospital reported to the Canada Revenue Agency as having assets of roughly C\$ 520 million. In the 2019–2020 fiscal year there were nearly 29,000 inpatient stays and 59,700 emergency department visits for Mount Sinai Hospital. The average length of stay for inpatients was 4.4 days. Princess Margaret Hospital, Nassau, Bahamas At its north end, the Ontario Legislative Building serves as a prominent terminating vista. Many of Toronto's most important institutions are located along the eight-lane wide street such as Osgoode Hall and other legal institutions, the Four Seasons Centre, major hospitals conducting research and teaching, and landmark office buildings for the commercial sector, notably major financial and insurance industry firms. The portion of University Avenue between Queen Street West and College Street is laid out as a boulevard, with several memorials, statues, gardens, and fountains concentrated in a landscaped median dividing the opposite directions of travel, giving it a ceremonial character. The hospital houses... The original location of the OCI/PMH was at 500 Sherbourne Street in Toronto. In 1995, the whole operation moved to a new building at 610 University Avenue, and the new Princess Margaret Hospital became part of the University Health Network. The OCI continued as the research arm of the PMH, that in 2012 changed its name in Princess Margaret Cancer Centre.

Old Toronto Toronto periodically grew in size by annexing adjacent land and municipalities. Old Toronto is the part of Toronto, Ontario, Canada, that corresponds to the boundaries of the City of Toronto prior to 1998. It was incorporated as a city in 1834, after being known as the town of York, and being part of York County. It was incorporated as a Old Toronto is the part of Toronto, Ontario, Canada, that corresponds to the boundaries of the City of Toronto prior to 1998.

Women's College Hospital began as Woman's Medical College in 1883. On June 13, 1883, Dr. Emily Stowe (1831–1903) the second woman licensed to practice medicine in Canada – led a group of her supporters to a meeting at the Toronto Women's Suffrage Club... In 1954, the City of Toronto and the surrounding suburban towns and townships of southern York County were joined in a federation known as the Municipality of Metropolitan Toronto (Metro). Later, the lower-tier city annexed two towns until it reached its final boundaries in 1967. In 1998, the municipalities of Metro Toronto were amalgamated into the present-day single-tier City of Toronto, which continues legally from the predecessor City of Toronto, although the by-laws of each municipality remained in force. James Till Mount Sinai Hospital has existed in Toronto since 1923 under various names; it has occupied its present site on University Avenue since 1953. In the fiscal year ending March 2013, Mount Sinai Hospital cared for 128,714 inpatients days, delivered almost 7,000 babies and performed almost 20,000 surgeries. Toronto and area residents made more than half a million ambulatory... A series of mergers over many years has resulted in the UHN in its... The network includes Toronto General Hospital, Toronto Western Hospital, Princess Margaret Cancer Centre, West Park Healthcare Centre, the Toronto Rehabilitation Institute, and The Michener Institute, a post-secondary institution granting diplomas and certificates in health sciences and leadership. In the 2019-2020 fiscal year, there were more than 39,000 acute inpatient stays and close to 121,000 emergency department visits across the three acute care hospitals.

Ontario Cancer Institute Clinicians usually preferred the hospital name, while the scientists used OCI. As Canada's first dedicated cancer hospital, it opened officially and began to receive patients in 1958, although its research divisions had begun work a year earlier. Because, at that time, a stigma was associated with the word "cancer", the hospital was soon renamed the Princess Margaret Hospital, although the whole operation was called the Ontario Cancer Institute incorporating the Princess Margaret Hospital, or OCI/PMH. As Canada's first The Ontario Cancer Institute (OCI) is the research division of Princess Margaret Cancer Centre, affiliated to the University Health Network of the University of Toronto Faculty of Medicine. division of Princess Margaret Cancer Centre, affiliated to the University Health Network of the University of Toronto Faculty of Medicine
