

Texas Abortion Law 2024

This has resulted in some expectant mothers with health problems being forced to carry until birth, jeopardizing their health, even resulting in deaths. Some pregnant women leave the state to seek an abortion elsewhere, with an estimated 35,000 women crossing Texas state lines for legal abortions in 2023. Anyone who aids or abets an illegal abortion in Texas can be sued for wrongful death. In March 2023, a Galveston man sued three friends of his ex-wife for wrongful death, after they helped her obtain illegal abortion pills that were used to terminate her pregnancy. The lawsuit was dropped on October 10, 2024, as part of a confidential settlement with the defendants. 1c41d0b2e9 Connecticut was the first state to regulate abortion in 1821; it outlawed abortion after quickening, the moment in pregnancy when the pregnant woman starts to feel the fetus's movement in the uterus, and forbade the use of poisons to induce one post-quickening. Many states subsequently passed

various laws on abortion until the Supreme Court of the United States decisions of Roe v. Wade and Doe v. Bolton decriminalized abortion nationwide in 1973. The Roe decision imposed a federally mandated uniform framework for state legislation on the subject. It also established a minimal period during which abortion is legal, with more or fewer restrictions throughout the pregnancy. 1c41d0b2e9

Abortion law Such laws range from abortion being freely available on request. Abortion laws vary widely among countries and territories, and have changed over time. Many countries and territories that allow abortion have gestational limits for the procedure depending on the reason; with the majority being up to 12 weeks for abortion on request, up to 24 weeks for rape, incest, or socioeconomic reasons, and more for fetal impairment or risk to the woman's health or life. In 2024, France became the first country to explicitly protect abortion rights in its constitution, while Yugoslavia implicitly inscribed abortion rights in its constitution in 1974. Abortion laws vary widely among countries and territories, and have changed over time. As of 2025, countries that legally allow abortion on request or for socioeconomic reasons comprise about 60% of the world's population. Such laws range from abortion being freely available on request, to regulation or restrictions of various kinds, to outright prohibition in all circumstances 1c41d0b2e9

That basic framework, modified in *Planned Parenthood v. Casey* (1992), remained nominally in place, although the effective availability of abortion varied significantly from state to state, as many counties had no abortion providers. *Planned Parenthood v. The Texas Heartbeat Act, the first abortion restriction to rely solely on enforcement by private individuals through civil lawsuits, rather than having state officials enforce the law with criminal or civil penalties. The law took effect on September 1, 2021, after the U. Supreme Court denied a request for emergency relief from Texas abortion providers. The act lets members of the public sue anyone who performs or helps carry out an illegal abortion for a minimum of \$10,000 in statutory damages per abortion, plus court costs and attorneys' fees. It was the first time a state had successfully imposed a six-week abortion ban since *Roe v. Wade*. The Supreme Court denied a request for
