Opuntia engelmannii a variety of common names, including desert prickly pear, discus prickly pear, Engelmann's prickly pear in the US, and nopal, abrojo, joconostle, and 92b5642355

The Little Prickly Pear Creek and Prickly Pear Canyon were first occupied by Native Americans for thousands of years, but the first noted and documented descriptions of the area were not made until John Mullan's passage of the area in 1859. He stated the canyon, "was a perfect defile" and "by far the most difficult of any point along the road". Later, in 1865, the road was licensed to the Little Prickly Pear Wagon Road Company to improve the road and make it a toll road. Exactly a year later, Helena merchants James King and Warren Gillete spent \$40,000 upgrading. After improvements, the road became the Benton Road in the early 1870s, and I-15 in 1967 with a rest stop completed slightly before in 1965. 92b5642355
