In 1866, Gustave Courbet painted a picture of a nude woman with her legs apart, entitled "The Origin of the World". When this was posted on Facebook 150 years later, it created a censorship controversy. Contemporary artists can still face backlash for depicting the female genitals; Megumi Igarashi was arrested for distributing a 3D digital file of her vulva. Works created since the advent of second-wave feminism circa 1965 range from large walk-through installations (Niki de Saint Phalle and Jean Tinguely) to small hand-held textile art pieces. Sometimes these are explicitly works of feminist art: Judy Chicago created The Dinner Party to celebrate 39 women of history and myth, many of whom had fallen into obscurity. Other artists deny that their works reference the female genitalia, although critics view them as such; the flower paintings of Georgia O'Keeffe are... Events == Etymology and definition...
