Egg donation Egg donation is a third-party reproduction as part of assisted reproductive technology. Egg donation (also referred to as "oocyte donation") is the process by which a woman donates eggs to enable another woman to conceive as part of an assisted Egg donation (also referred to as "oocyte donation") is the process by which a woman donates eggs to enable another woman to conceive as part of an assisted reproduction treatment or for biomedical research. For assisted reproduction purposes, egg donation typically involves in vitro fertilization technology, with the eggs being fertilized in the laboratory; more rarely, unfertilized eggs may be frozen and stored for later use 97fc47a469

== History == 97fc47a469 Seuss began writing Green Eggs and Ham after Bennett Cerf, his editor, bet him \$50 (equivalent to \$544 in 2025) that he could not write an engaging children's book using a vocabulary of 50 words. Finding the challenge difficult, Seuss used notes, charts, and checklists to keep track of his progress. The book covers themes of conflict between individuals, though Seuss has stated that it lacks any deeper meaning. 97fc47a469
