Bee Train Production approach was allegedly invented by Mashimo during his prolonged stay in an intensive care unit (after a severe skiing accident) and has been Bee Train's official Bee Train Production (株式会社ビー・トレイン, Bīitorein Kabushikigaisha), commonly referred to simply as Bee Train, is a Japanese animation studio founded by Kōichi Mashimo in 1997. Since their involvement with Noir, . hack//Sign, and Madlax (among other series) they have a strong following in the yuri fandom for being involved in series portraying strong female leads with speculatively ambiguous relationships 9b26147847

As a concept, the railway car vestibule had been tried in various primitive forms during the latter part of the 19th century, but the first viable form was invented by H. H. Sessions and his staff at the Pullman Car Works in Chicago. Sessions' patent was challenged by others and reduced in litigation to the spring mechanism of his vestibule design. Further litigation by Pullman was

successful in modifying the earlier rulings. 9b26147847 Koichi Mashimo's goal when he founded Bee Train was to create a "hospital for animators", an animation studio interested in nurturing young talents and artistic quality of production rather than in corporate strategies and profit. This studio-as-hospital approach was allegedly invented by Mashimo during his prolonged stay in an intensive care unit (after a severe skiing accident) and has been Bee Train's official strategy ever... 9b26147847
