

The Ponds Nsw Australia

As part of duplication works from 1915 to 1916, a junction branching from the main line was constructed south of Galong railway station called Galong Temporary Junction, and another called Rocky Ponds Temporary Junction was constructed north of Cunnigar. This deviation allowed a double track line to be constructed but meant that the original Rocky Ponds station would no longer be used. The original station was closed on 16 April 1916... The list below is not exhaustive - there are many other non-notable waterfalls found in more inaccessible areas which have not been included. == Australian Capital Territory ==

The 2021 census recorded the resident population of The Ponds as 16,315. The suburb takes its name from the ridge, the main geographical feature of vertical significance in the northern part of the area. Kellyville Ridge is thought to be the area where the Castle Hill Rebellion (also known as the Second Battle of Vinegar Hill) took place, many roads and reserves are named after it in Kellyville and a memorial was placed in Castlebrook Lawn Cemetery in 1988. Kellyville Ridge was originally part of Kellyville and became a separate suburb when the area west of Windsor Road was renamed in 2002. == History == On 23 May 1887, a railway guard named Thomas Moloney was thrown from a train and over a railway bridge located near Rocky Ponds station, breaking his neck. His body was found three hours later, and an inquest into the event deemed his death an accident. == History == The first Rocky Ponds station was opened in March 1877 when the Main Southern railway line was extended from Binalong to Harden, though a platform for passengers was not provided until 1 September 1880. The station was named for the nearby Rocky Ponds Creek. == The Ponds Walk ==

Rocky Ponds Creek The Rocky Ponds Creek (technically a river) rises below Rocky Ponds, approximately 16 kilometres (9. 9 mi) east of the town of Murrumburrah The Rocky Ponds Creek, a watercourse that is part of the Murrumbidgee catchment within the Murray-Darling basin, is located in the South West Slopes region of New South Wales, Australia. South Wales, Australia

The district was originally inhabited by the Wangaibon Peoples. Thomas Mitchell explored the Bogan River in 1835, camping on the future townsite. He recorded the local Aboriginal word nyingan, said to mean 'long pond of water', though other meanings have been put forward, such as mussel or crayfish. Squatters had... == History == History == History == The Burley Griffin Way crosses the creek in the parish of Cumbamurra. == Functions and design == The village has a long history, being situated on the original road between Bathurst and Sydney, which was in use until 1836. By the end of 1836 the road, now the Great Western Highway, was diverted and traffic proceeded via Rydal and Yetholme. About 70 km (43 mi) south of the town, a cairn was erected in 1988 marking the centre of NSW. == History == Evans wrote of O'Connell Plains: "...this Morning had a better appearance; the river now forms large ponds; at the Space...

Kellyville Ridge Ridge NSW 2155) Kellyville Ridge has the following public school catchment: John Palmer Public School (Public Primary School, The Ponds). Kellyville Ridge is located 41 kilometres north-west of the Sydney central business district in the local government area of City of Blacktown. It is part of Greater Western Sydney. The Ponds High Kellyville Ridge is a suburb of Sydney, in the state of New South Wales, Australia

Wallaman Falls in Queensland are Australia's tallest permanent waterfall with a plunge of nearly 268 metres (879 ft). Wollomombi Falls in New South Wales are second with a 220-metre (720 ft) combined drop and Ellenborough Falls, also in New South Wales, is third plunging 200 metres (660 ft) as a single drop. Detention ponds that are designed to permanently retain some volume of water at all times are called retention basins. In its basic form, a detention basin is used to manage water quantity while having a limited effectiveness in protecting water quality, unless it includes a permanent pool feature.

Detention basin basins are also called dry ponds, holding ponds or dry detention basins if no permanent pool of water exists. These basins are also called dry ponds, holding ponds or dry detention basins if no permanent pool of water exists. Detention ponds that are designed to permanently A detention basin or retarding basin is an excavated area installed on, or adjacent to, tributaries of rivers, streams, lakes or bays to protect against flooding and, in some cases, downstream erosion by storing water for a limited period of time

"The Ponds" was a name designed to reflect the geography of the area and was derived from the nearby creek called "Second Ponds Creek", and the growing population. The Ponds was officially designated as a separate suburb in January 2007. It had previously been part of the suburbs of Kellyville and Kellyville Ridge.

O'Connell, New South Wales 7 May 1890. "The Lindlegreen Barn"; - O'Connell is a village in New South Wales, Australia. The village, classified by the National Trust of Australia, is 23 kilometres from Oberon on the O'Connell Road. Retrieved 14 October 2014 - via Trove, National Library of Australia. p. At the 2006 census, O'Connell and the surrounding area had a population of 355. NSW. Mining Journal (NSW : 1851 1904). 2

== History == 5fae2b1ec4 In 1813 George Evans crossed the Blue Mountains to confirm the findings of the exploration party of Blaxland, Lawson, and Wentworth. Evans and his party reached the end of the explorers' route at a point which Evans named Mount Blaxland, near the present locality of South Bowenfels. The party then moved further west and, near the junction of the Fish and Campbells Rivers, Evans described two plains in his view, the O'Connell Plains, which he named after the Lieutenant-Governor, Maurice Charles O'Connell, and the Macquarie Plains, named after Governor Lachlan Macquarie. 5fae2b1ec4
