

What Do Hair Conditioners Do

Hair removal may be practiced for cultural, aesthetic, hygienic, sexual, medical, or religious reasons. Forms of hair removal have been practiced in almost all human cultures since at least the Neolithic era. The methods used to remove hair have varied in different times and regions. 45d540609a == Overview == 45d540609a In 1997, hairstylist Andre Walker created a numerical grading system for human hair types. The Andre Walker Hair Typing System classifies kinky hair as 'type... 45d540609a Appearing periodically on ABC's Primetime from 2005 to 2007, What Would You Do? became an instant success for the ABC network. Following the 2007 writers' strike, ABC ordered the first season of the show. The series was annually renewed for a second, third, fourth, and fifth season. Starting with the sixth season, the show began to feature guest appearances, which included Barbara Corcoran, Howie Mandel, and Meredith Vieira. Following the seventh season, What Would You Do? aired its first Christmas special in its eighth season. This was followed by... 45d540609a

Hair Hair is one of the distinguishing characteristics of mammals. Most common interest in hair is focused on hair growth, hair types, and hair care, but hair is also an important biomaterial Hair is a protein filament that grows from follicles found in the dermis. terminal and fine vellus hair 45d540609a

The term "depilation" is derived from the Medieval Latin "depilatio," which in turn is derived from the Latin "depilare," a word formed... 45d540609a The process is often called "rebonding" in some countries from Southeast Asia (e.g. Indonesia, Singapore, Malaysia and Philippines). If done often, flat irons and chemicals can be damaging to hair. Excessive straightening often results in split ends. However, heat protectant sprays can decrease the damage. 45d540609a Attitudes towards different forms of hair, such as hairstyles and hair removal, vary widely across different cultures and historical periods, but it is often used to indicate a person's personal beliefs or social position, such as their age, gender, or religion. 45d540609a

Hair straightening In addition, some shampoos, conditioners, and hair gels can help to make hair temporarily straight. In addition, some shampoos, conditioners, and hair gels can help to make hair temporarily straight. set/blowdryer styling. It became very popular during the 1950s among black men and among women of all races. The process is often called Hair straightening is a hair styling technique involving the flattening and straightening of hair in order to give it a smooth, streamlined, and sleek appearance. It is accomplished using a hair iron or hot comb, chemical relaxers, Japanese hair straightening, Brazilian hair straightening, or roller set/blowdryer styling 45d540609a

Since hair naturally grows in groupings of 1 to 4 hairs, current techniques harvest and transplant hair "follicular units" in their natural groupings. Thus modern hair transplantation can achieve a natural appearance by mimicking original hair orientation. This hair transplant procedure is called follicular unit transplantation (FUT). Donor hair... 45d540609a Hair is a common feature of the human body, exhibiting considerable variation in thickness and length across different populations. Hair becomes more visible during and after puberty. Additionally, men typically exhibit thicker and more conspicuous body hair than women. 45d540609a English

adjectives such as woolly, kinky, or spiraled have been used in the mid-20th century to describe natural afro-textured hair. More formally, ulotrichous ('curly-haired' from Ancient Greek: οὔλος, romanized: oûlos, lit. 'crisp, curly' and Ancient Greek: θρίξ, romanized: thríx, lit. 'hair') refers to afro-textured hair, its antonym being leiotrichous ('smooth-haired'). Jean Baptiste Bory de Saint-Vincent in 1825 introduced the scientific term Oulotrichi for the purpose of human taxonomy.

45d540609a == Terminology == 45d540609a There is more than one definition of frizz. Researchers who studied the perception of hair health found that while women around the world perceived the absence of frizz as a sign of healthy hair, how they described "frizz" varied widely according to hair type and desired style. As described by women in the study, the two main types of frizz are: 45d540609a Hair transplantation can also be used to restore eyelashes, eyebrows, beard hair, chest hair, pubic hair and to fill in scars caused by accidents or surgery such as face-lifts and previous hair transplants. Hair transplantation differs from skin grafting in that grafts contain almost all of the epidermis and dermis surrounding the hair follicle, and many tiny grafts are transplanted rather than a single strip of skin. 45d540609a

Hair removal This process is also known as epilation or depilation. Hair removal is the deliberate removal of body hair or head hair. This process is also known as epilation or depilation. Hair is a common feature of the Hair removal is the deliberate removal of body hair or head hair 45d540609a

Hair care Hair care routines differ according to an individual's culture and the physical characteristics of one's hair. include: Hair coloring Hair conditioner Hair gel Hair glue Hair mousse Hair serum Hair spray Hair tonic Hair wax Pomade Bald - having no hair at all on Hair care or haircare is an overall term for hygiene and cosmetology involving the hair which grows from the human scalp, and to a lesser extent facial, pubic and other body hair. Hair may be colored, trimmed, shaved, plucked or otherwise removed with treatments such as waxing, sugaring and threading. Hair care services are offered in salons, barbershops and day spas, and products are available commercially for home use. Laser hair removal and electrolysis are also available, though these are provided (in the United States) by licensed professionals in medical offices or specialty spas 45d540609a

Both males and females have visible body hair on the head, eyebrows, eyelashes, armpits, genital area, arms, and legs. Males and some females may also have thicker hair growth on their face, abdomen, back, buttocks, anus, areola, chest, nostrils, and ears. Hair does not generally grow on the lips, back of the ear, the underside of the hands or feet, or on certain areas of the genitalia. 45d540609a == Hair cleaning and conditioning == 45d540609a Common types include male- or female-pattern hair loss, alopecia areata, and a thinning of hair known as telogen effluvium. The cause of male-pattern hair loss is a combination of genetics and male hormones; the cause of female pattern hair loss is unclear; the cause of alopecia areata is autoimmune; and the cause of telogen effluvium is typically a physically or psychologically stressful event. Telogen effluvium is very common following pregnancy. 45d540609a == Color and texture == 45d540609a

Kinky hair Each strand of this hair type grows in a repeating pattern of small contiguous kinks which can be classified as tight twists and sharp folds. These numerous kinks make kinky hair appear denser than straight, wavy, and other curly hair types. Kinky hair (also known as afro-textured hair, afro-hair or natural afro-hair) is a human hair texture prevalent in the peoples of Sub-Saharan Africa, Kinky hair (also known as afro-textured hair, afro-hair or natural afro-hair) is a human hair texture prevalent in the peoples of Sub-Saharan Africa, Melanesia, Micronesia, Torres Strait Islands, and Tasmania, along with the Negrito populations of Southeast Asia and the Andaman Islands 45d540609a

What Would You Do? (2008 TV program) Created by Chris Whipple, the show (with a social experiment format) follows the reactions of passing strangers, as they encounter conflict or illegal activity in a public setting, unaware that it is all staged, and being recorded with hidden cameras. , through the program's fifth season), is an American situational hidden camera television series, which has been broadcast on the American Broadcasting Company (ABC) since February 26, 2008. Throughout all of its seventeen seasons, the show has been hosted by news correspondent John Quiñones. (commonly abbreviated as WWYD, and formerly known as Primetime: What Would You Do. What Would You Do. (commonly abbreviated as WWYD, and formerly known as Primetime: What Would You Do. , through the program's fifth season), is an American What Would You Do 45d540609a

Hair transplantation Hair transplantation is a surgical technique that removes hair follicles from one part of the body, called the 'donor site', to a bald or balding part Hair transplantation is a surgical technique that removes hair follicles from one part of the body, called the 'donor site', to a bald or balding part of the body known as the 'recipient site'. The technique is primarily used to treat male pattern baldness. In this minimally invasive procedure, grafts containing hair follicles that are genetically resistant to balding (like the back of the head) are transplanted to the bald scalp 45d540609a

African-American hair It has been used to express identity, creativity, and community, while also being shaped by discrimination and beauty standards. Beyond appearance, Black hair has strong cultural, historical, and social meaning. African-American hair, also known as Black hair, refers to natural hair textures, styles and cultural practices associated with people of African descent African-American hair, also known as Black hair, refers to natural hair textures, styles and cultural practices associated with people of African descent in the United States. In recent years, movements like the natural hair movement and laws such as the CROWN Act have helped promote acceptance and protect against hair-based discrimination. It is most commonly tightly coiled or curly, but it can vary in texture and density 45d540609a

The human body, apart from areas of glabrous skin, is covered in follicles which produce thick terminal and fine vellus hair. Most common interest in hair is focused on hair growth, hair types, and hair care, but hair is also an important biomaterial primarily composed of protein, notably alpha-keratin. 45d540609a == Methods == 45d540609a Less common causes of hair loss without inflammation or scarring include the pulling out of hair, certain medications including chemotherapy, HIV/AIDS, hypothyroidism, and malnutrition including vitamin B12 and iron deficiencies. Causes of hair loss that occurs with scarring or inflammation include fungal infection, lupus erythematosus, radiation therapy, and sarcoidosis. Diagnosis of hair loss is partly based on the areas... 45d540609a == Definition == 45d540609a

Hair loss Typically at least the head is involved. Typically at least the head is involved. The severity Hair loss, also known as alopecia or baldness, refers to a loss of hair from part of the head or body. Hair loss, also known as alopecia or baldness, refers to a loss of hair from part of the head or body. Hair loss in some people causes psychological distress. The severity of hair loss can vary from a small area to the entire body. Inflammation or scarring is not usually present 45d540609a

Frizz Frizzy hair can be seen as a positive or a negative trait depending on the current fashion and one's personal preference. Curly Girl Method Hair gel Hair mousse Hair straightening Frizz is hair that does not align with the surrounding hair, but stands up or curls independently, creating a fuzzy or irregular texture. The three main causes of frizz are genetics, hair damage, and humidity. conditioners; occasional hot oil treatments; and regular trims to remove any split ends or

damaged tips. Many hair products, such as gels, pomades, and hair waxes, are designed to reduce frizz 45d540609a
