Labia usually disappear without treatment. In humans and other primates, there are two pairs of labia: the labia majora (outer lips) are large and thick folds of skin that cover the vulva's other parts, while the labia minora (inner lips) are the folds of skin between the outer labia that surround and protect the urethral and vaginal openings, as well as the glans clitoridis. Treatment options may include estrogen cream, manual separation with local anesthesia, or surgical separation under sedation The labia are the major externally visible structures of the vulva

== History == c6f75e0dbc Originally known as Buckingham House, the building at the core of today's palace was a large townhouse built for the Duke of Buckingham and Normanby in 1703 on a site that had been in private ownership for at least 150 years. It was acquired by George III in 1761 as a private residence for Queen Charlotte and became known as The Queen's House. In the early 19th century it was enlarged by the architects John Nash and Edward Blore, who constructed three wings around a central courtyard. Buckingham Palace became the London residence of the British monarch on the accession of Queen Victoria in June 1837. It was occupied by every subsequent monarch until the accession in 2022 of King Charles III, who continues to reside at nearby Clarence House while conducting official duties at the palace. c6f75e0dbc == History == c6f75e0dbc
