WELL HOLD ON TO YOUR KNEE CAPS BECAUSE HERE WE GO. It is pretty clear that TLV was largely inspired by Touhou 12: Unidentified Fantastic Object, which came out 1 year earlier. The weapon pickup system is very similar to the UFO collection in...UFO. But ahhhhhhhhh why did they ever pick THAT game as the basis? UFO is considered one of the hardest Touhou games because the system is incredibly inconsistent and leads to a lot of deaths trying to get power. There were so many better thing to be inspired from that weren't mechanically problematic. Just copy Mountain of Faith for goodness sake, it was LITERALLY DESIGNED AS A SOFT REBOOT TO THE FRANCHISE and had very accessible and easy to learn mechanics as a result! A core mechanic forcing people to stop bottom hugging on a one-off game mode is incredibly silly! I have a pet peeve about people who invest a lot of time to get good at something and then proceed to forget how much time they invested to get there and assume everybody else can keep up with them. That sort of feels like what happened here. Somebody was a decent STG player and forgot how insanely difficult the genre is to get into. Anyway while I was making this video I ended up getting into Lost Branch of Legend because I needed a turn based game I could play in bite sized chunks. Really solid Slay the Spire knockoff. The use of MTG mana colors really adds a strategic depth that I like a lot, though I think the game is a bit too snowbally. The \"True\" boss on lunatic is nice and tough but I don't think I have ever lost on act 3 because of how strong you get by then. Spell Carnival arrived in the mail while I was making this video and I am hoping it is decent, just haven't had time to boot it up yet. I am a big Turn Based Strategy fan so I have high hopes. There is also Touhou Empires coming out eventually which I was hoping would be good but I legitimately don't want to play it because Reimu's sprite is too ridiculous. Anyway but maybe that is okay because Marisa >>

Reimu anyway and I doubt this game would be an exception 1480e863af Low Mass Stars 1480e863af The Life and Death of Stars: White Dwarfs, Supernovae, Neutron Stars, and Black Holes - The Life and Death of Stars: White Dwarfs, Supernovae, Neutron Stars, and Black Holes 16 minutes - We've learned how **stars**, form, and we've gone over some different types of **stars**,, like main sequence **stars**,, red giants, and white ... 1480e863af Media Blitz 1480e863af Upgrades 1480e863af Welcome To The Jungle 1480e863af All-in 1480e863af Subtitles and closed captions 1480e863af Lorde - Big Star (Visualiser) - Lorde - Big Star (Visualiser) 2 minutes, 48 seconds - New album Solar Power out now: <https://lorde.lnk.to/SPAlbum> The Solar Power Tour is on sale now - get dates and tickets: ... 1480e863af The Finale 1480e863af Keyboard shortcuts 1480e863af Dr. Ariel Hanson 1480e863af MLG Cribs: The Hyperion 1480e863af Maw of the Void 1480e863af
