It infects humans, other primates, and several types of mosquitoes. In cities, it is spread primarily by Aedes aegypti, a type of mosquito found throughout the tropics and subtropics. The virus is an RNA virus of the genus Orthoflavivirus (full scientific name Orthoflavivirus flavi). The disease may be difficult to tell apart from other illnesses, especially in the early stages. To confirm a suspected case, blood-sample testing with a polymerase chain reaction is required. dbf3081fc0

1793 Philadelphia yellow fever epidemic The Philadelphia 1793 yellow fever epidemic was an epidemic that took place in Philadelphia. Doctors tried a variety of treatments but knew neither the origin of the fever nor that the disease was transmitted by mosquitoes (this information was not verified until the late 19th century). The mortality rate peaked in October before frost finally killed the mosquitoes and brought an end to the outbreak. The vast majority of them died of yellow fever, making the epidemic in the city of 50,000 people, one of the most severe in United States history. During the epidemic, 5,000 or more people died between August 1 and November 9. Most did not return until after the epidemic had abated in late November. The first signs and symptoms of Colorado Tick Fever appear between the first and 14th day after the bite from the tick. Once bitten by the tick and the symptoms begin, one will more often than not experience a biphasic fever. A biphasic fever is a fever that attacks, only to let you feel better, just to infect you once again. Although the infection may only last a couple of weeks, the virus can be found in the red blood cells for up to six months after being cured.

Initial symptoms include fever, chills, headaches, pain behind the eyes, light sensitivity, muscle pain, generalized malaise, abdominal pain, enlargement... Colorado tick fever virus (CTFV) infects haemopoietic cells, particularly erythrocytes, which explains how the virus is transmitted by ticks and also accounts for the incidence of transmission by blood transfusion.
